

Amendments to Performance Indicator Information in 2004/05 Annual Report

Every year, each Local Authority has to submit the Best Value Performance Indicator (BVPI) results to the Audit Commission so they can come in and audit the figures that we have collected. These are published in our Annual Report (incorporating the Best Value Performance Plan). During the audit either Ashford Borough Council or the Audit Commission may find variances from our original figures. These variances are published here:

Original figures shown in black

Any amendments shown alongside in red

Corporate Health

Indicator name and description	2004/05 Actual	2005/06 target	2006/07 target	2007/08 target
