### **3. Background**

#### **3.1 Role of Hackney Carriages and Private Hire vehicles**

3.1.1 Hackney carriage and private hire vehicles have a specific role to play in an integrated transport system. They are able to provide services in situations where public transport is either not available (for example in rural areas, or outside “normal” hours of operation such as in the evenings or on Sundays), and/or for those with mobility difficulties.

#### **3.2 Aims**

3.2.1 The aim of licensing the hackney carriage and private hire vehicle trade is, primarily, to protect the public as well as to ensure that the public have reasonable access to these services, because of the part they play in local transport provision. It is important that the Council’s hackney carriage and private hire licensing powers are used to ensure that licensed vehicles in the district are safe, comfortable, properly insured and available where and when required. The hackney carriage and private hire industry within the Council’s area is fairly comprehensive and provides its population with a reasonable service. This policy builds on the industry’s existing strengths and on the 2008 policy.

#### **3.3 Licensing Profile**

3.3.1 The Council currently licenses approximately 100 hackney carriages and similar number of private hire vehicles. There are approximately 380 hackney/private hire drivers licensed by the Council.

#### **3.4 Review of Policies & Practices**

3.4.1 The Council has responsibility for licensing hackney carriage and private hire vehicles, drivers and operators within the borough of Ashford.

3.4.2 This guidance sets out what is considered to be best practice in terms of hackney carriage and private hire licensing. It does not seek to cover the whole range of possible licensing requirements. Instead it seeks to concentrate only on those issues that have caused difficulty in the past or that seem of particular significance.

#### **3.5 Best Practice Guidance & Legislation**

3.5.1 The Department for Transport (DfT) has national responsibility for hackney carriage and private hire legislation in England and Wales.

3.5.2 In 2006 the DfT produced a Best Practice Guidance to assist local authorities with the regulation of the hackney carriage and private hire trades. It was directed at local authorities in England and Wales to “decide for themselves

the extent to which they wish to make use of it or adapt it to suit their own purposes". There was recognition, within the document, that it is for individual licensing authorities to reach their own decisions both on overall policies and on individual licensing matters, in the light of their own views of the relevant considerations.

3.5.3 In 2010 the DfT's Guidance was updated and this policy revision takes the 2010 version in to account.

3.5.4 This document also takes account of the legislative basis of the Council's taxi licensing powers, contained in the Town Police Clauses Act 1847 and the Local Government (Miscellaneous Provisions) Act 1976, as amended.

### **3.6 Costs and Benefits of Licensing Policies**

3.6.1 The Guidance stresses that licensing requirements that are unduly stringent are likely to unreasonably restrict the supply of hackney carriage and private hire services, by increasing the cost of operation or by otherwise restricting entry to the trade. Licensing authorities are, therefore, cautioned to recognise that too restrictive an approach may well work against the public interest and can have safety implications.

3.6.2 Licensing authorities are encouraged to ensure that each of their various licensing requirements is properly justified by the risk it seeks to address. The financial or other cost of a particular requirement, in terms of its effect on the availability of transport to the public, should at least be matched by the benefit it will provide to the public, for example, through increased safety.

## **4. Introduction**

### **4.1 Powers and Duties**

4.1.1 This revised statement of licensing policy has been produced pursuant to the powers conferred by the Town Police Clauses Act 1847 and the Local Government (Miscellaneous Provisions) Act 1976, as amended, which places on the Council the duty to carry out its licensing functions in respect of hackney carriage and private hire vehicles.

4.1.2 The aim of the licensing process is to regulate the hackney carriage and private hire trade in order to promote well-run and responsible businesses that display sensitivity to the wishes and needs of the general public.

### **4.2 Policy Status**

4.2.1 In exercising its discretion in carrying out regulatory functions, the Council will have regard to this policy document.

- 4.2.2 Notwithstanding the existence of this policy, each application or enforcement measure will be considered on its own merits. Where it is necessary for the Council to depart substantially from its policy, clear and compelling reasons will be given for so doing.
- 4.2.3 This policy (and associated work procedures) will provide those Council Officers who are required to administer the licensing function with appropriate guidelines within which to act. The Council may need to consider applications outside the policy.
- 4.2.4 This policy will take effect on 1<sup>st</sup> May 2012 and will remain in existence for a period of five years, during which it shall be kept under review and revised as appropriate.

## **5. Vehicles - (Hackney Carriage & Private Hire)**

### **5.1 Limitation of Numbers**

- 5.1.1 No powers exist for licensing authorities to limit the number of private hire vehicles that they licence. The present legal provisions on quantity restrictions for hackney carriage vehicles are set out in section 16 of the Transport Act 1985. This provides that the grant of a hackney carriage licence may be refused, for the purpose of limiting the number of licensed hackney carriages “if, but only if, the local authority is satisfied that there is no significant demand for the services of hackney carriages (within the area to which the licence would apply) which is unmet”. In the event of a challenge to a decision to refuse a licence on these grounds, it would, therefore, have to be established that the Council had been reasonably satisfied that there was no significant unmet demand.
- 5.1.2 Many Councils do not impose any quantity restrictions on hackney vehicles and the DfT regards this as best practice. Where restrictions are imposed, licensing authorities are urged to regularly reconsider the matter, taking into account whether the restrictions should continue at all. It is suggested that the matter should be approached in terms of the interests of those who use the services of such vehicles.
- 5.1.3 Where quantity restrictions are imposed, vehicle licence plates command a premium, often of thousands of pounds. This tends to suggest that there are people who want to enter the market and provide a service to the public, but who are being prevented from doing so by the quantity restrictions.
- 5.1.4 If the Council were to take the view that a quantity restriction can be justified in principle, the Guidance advises that the level at which the limit should be set is addressed by means of a survey.

5.1.5 The Council does not intend to set a limit on the number of hackney carriages that it licences, since no evidence has been provided of any difficulty arising from this stance. However, all new licences are issued to wheelchair accessible vehicles only.

## **5.2 Specifications and Conditions**

5.2.1 Local authorities have a wide range of discretion over the types of vehicle that they can licence as hackney carriages and private hire vehicles.

5.2.2 The DfT Guidance suggests that best practice is for local licensing authorities to adopt the principle of specifying as many different types of vehicle as possible. Authorities are encouraged to leave it open to the trade to put forward vehicles of their own choice, which can be shown to meet basic criteria. In that way, emerging new designs for vehicles can be readily taken into account.

5.2.3 Licensing authorities are asked to be particularly cautious about specifying only purpose-built hackney carriages, with the strict constraint on supply that that implies. Councils are however encouraged to make use of the “type approval” rules within any specifications they determine this is explained in more detail elsewhere in this policy.

5.2.4 The Council is empowered to impose such conditions, as it considers reasonably necessary, in relation to the grant of a hackney carriage or private hire vehicle licence. Hackney carriages and private hire vehicles provide a service to the public, so it is appropriate to set criteria for the external and internal condition of the vehicle, provided that these are not unreasonably onerous. The council has adopted minimum standards as set out in Appendix A, which it will normally apply in respect of all licensed vehicles.

5.2.5 Vehicles will, in general, be licensed for the carriage of up to four passengers, but applications in relation to larger vehicles that can accommodate up to eight passengers will be accepted, provided that there is compliance with the specifications applicable to such vehicles. Purpose built vehicles are amongst those, which the Council will licence only as hackney carriages in view of the possible confusion in the minds of the travelling public between the two types of vehicle.

## **5.3 Accessibility**

5.3.1 The Government is committed to an accessible public transport system in which disabled people have the same opportunities to travel as other members of society. While the Disability Discrimination Act (DDA) 1995 and the Equalities Act 2010 allow regulations to set standards for wheelchair accessible taxis.

- 5.3.2 Section 36 of the DDA was partially commenced by enactment of the Local Transport Act 2008 and it places certain duties on licensed drivers to provide assistance to people in wheelchairs, to carry them safely and not to charge extra for doing so. Failure to abide by these duties could lead to prosecution and a maximum fine of £1,000.
- 5.3.3 Since the introduction of granting hackney carriage vehicle licences to wheelchair accessible vehicles, the proportion of such vehicles has increased to 20%.
- 5.3.4 Until further regulations are introduced, it will remain for individual licensing authorities to determine their accessibility policies in consultation with the local trade and disabled people.
- 5.3.5 The National Taxi Association, supported by ROSPA (Royal Society for the Prevention of Accidents) and a number of disabled persons groups have in the past written to all licensing authorities asking them to prohibit the use of hackney carriage vehicles which are adapted for disabled passengers, where the wheelchair is loaded only from the rear rather than the side of the vehicle. The argument for this approach is that the wheelchair user has to be on the road during loading and unloading and is, therefore, exposed to risk from traffic. This is seen as being particularly relevant for hackney carriages, which, of necessity, operate from side loading hackney carriage stands.
- 5.3.6 It is arguable that different accessibility considerations should apply as between hackney carriage and private hire vehicles in that customers dealing directly with the driver can hire hackney carriages on the spot, whereas private hire vehicles can only be booked through an operator. It is considered particularly important that a disabled person should be able to hire a hackney carriage on the spot with the minimum of delay or inconvenience and having accessible hackney carriage vehicles available helps make that possible.
- 5.3.7 The policy set out at 5.1.5 above in respect of the limitation on numbers, is specifically designed to encourage new taxis to be accessible in that every new hackney vehicle license plate issued must be wheelchair accessible. Any requirements to provide such access for private hire vehicles are considered less appropriate and in this case private hire operators will simply be encouraged to offer accessible vehicles within their fleet. The Vehicle Specification at Appendix A indicates what is to be required in respect of wheelchair access for those vehicles which have been adapted or constructed for this purpose. It includes a requirement that, in the case of hackney vehicles that are adapted for disabled passengers, the wheelchair should be loaded from the side rather than the rear of the vehicle.

## **5.4 Maximum Age of Vehicles**

5.4.1 The Council has an age restriction on licensed vehicles, (see Appendix A), but all applications for the licensing of vehicles will be treated on its individual merit however the following conditions have been placed on the licensing of vehicles. Applicants wishing to licence vehicles outside of this policy should show sufficient reason for the Council to deviate from agreed policy.

## **5.5 Vehicle Testing**

5.5.1 No vehicle may be used as a hackney carriage or private hire vehicle unless it has been given a certificate of compliance in respect of a satisfactory test, and the Council has appropriately licensed it. Responsibility for ensuring the vehicle is tested and licensed remains with the licence holder. These inspections are to be carried out by a garage appointed by Ashford Borough Council.

## **5.6 Signage & Advertising**

5.6.1 Members of the public can often confuse private hire vehicles with hackney carriages, without realising that private hire vehicles are not available for immediate hire or able to be hailed in the street. It is, therefore, important that the public are able to easily distinguish each type of vehicle.

5.6.2 It is possible to prohibit private hire vehicles from displaying any identification at all apart from the Council's licence plate or disc. Some clearer identification is, however, seen as best practice. This is for two reasons: firstly, to ensure a more positive statement that the vehicle cannot be hired immediately through the driver, and secondly because it is quite reasonable (and in the interests of the travelling public) for a private hire vehicle operator to be able to state on the vehicle the contact details for hiring.

5.6.3 What is permitted, or indeed prohibited, to be displayed on either hackney or private hire vehicles in a particular borough tends to be a controversial area of licensing controls with little or no apparent consensus between licensing authorities.

5.6.4 Within the Council's area, both hackney carriages and private hire vehicles are required to display a licence plate on the rear of the vehicle and the plates are different colours to distinguish one type from another. This is a key feature in helping to identify vehicles that are properly licensed.

5.6.5 In view of the above details, all hackney carriages licensed by the Council must carry illuminated roof-mounted sign indicating they are a taxi and these must be lit when plying for trade. In order to differentiate between the two types of licensed vehicle, private hire vehicles must not carry roof-mounted signs of any kind, and they must have no signs (roof-mounted or otherwise) using the words "Taxi", "Hackney", "Cab", or "For Hire".

- 5.6.6 Limited advertising giving details concerning the proprietor's or operator's private hire business will be permitted, but this will be strictly controlled so that confusion between private hire and hackney carriage vehicle is kept to the minimum.
- 5.6.7 Private hire vehicles in the borough are permitted to display signs that indicate that they are for private hire only and are not insured for other uses.
- 5.6.8 Private hire vehicles are permitted restricted first party advertising subject to the following restrictions:
- the advertising material shall be restricted to the metal surface of the drivers and front passengers' doors. If advertising material is to be displayed, it must include the words "ADVANCE BOOKING ONLY" OR "PRIVATE HIRE ADVANCE BOOKING ONLY". It can include the proprietor's company name, logo, website, email address or telephone number
  - the advertising material shall not contain the words "TAXI", "HACKNEY", "CAB" or "FOR HIRE". This restriction includes the use of these words within the proprietor's company name, log, website or email address
  - the advertising material shall be non-reflective
  - nothing shall be advertised which might reasonably cause offence to members of the public
  - requests to allow third party advertising will be considered on a case-by-case basis, as will any signage related to accredited awards for best practice and membership of professional organisations
- 5.6.9 Private hire vehicles are not permitted to display on the outside or inside of the vehicle in such a manner to be conspicuous from the outside any other signs, telephone numbers or other advertising material.
- 5.6.10 The Council reserves the right to require that any advertisement it deems unsuitable be removed forthwith.
- 5.6.11 Full livery third party advertising if desired is permitted on hackney carriage vehicles in the Borough. This is subject to the following conditions:
- Nothing shall be advertised which might cause reasonable offence to members of the public
  - The Council reserves the right to require that any advertisement it deems unsuitable be removed forthwith

## **5.7 Exemption from displaying plates**

5.7.1 The Local Government (Miscellaneous Provisions) Act 1976 requires that private hire vehicles and drivers display the relevant licence plate and badge issued by the Council at all times. The same legislation also permits a Council to exempt the display of licence plates and, where that exemption applies, the requirement to wear a private hire driver's badges does not apply.

5.7.2 The open display of these identifying plates and badges is important in terms of protecting both the public and the taxi trade. However, there are limited occasions when the display of such identification may have the opposite effect both in terms of customer safety and commercial implications for the operating business. The operation of chauffeured, executive and limousine vehicles is a case in point. Identification of the vehicle as a licensed vehicle may allow "high risk" passengers to be more readily targeted putting both them and the driver at risk. The display of the Council's licence plates externally may also deter some customers from using the service.

5.7.3 It is not intended that all private hire vehicles should have access to this exemption. Only a small minority operating the type of service described above. To that end it is only considered appropriate to consider issue of exemption notices where the following requirements are met:

- The vehicle to be exempted is of a high quality both in terms of brand and condition
- Vehicles will normally be the accepted luxury brands such as Mercedes Benz, BMW, Jaguar, Rolls Royce, Bentley and Lexus. The highest specification executive type cars from other manufacturers may also be considered
- Vehicles will display a disc, issued by the Council, in the front windscreen
- The vehicle must have no visible defects, dents or blemishes to the external bodywork or internal trim

## **5.8 Security & Closed Circuit Television (CCTV)**

5.8.1 The DfT Best Practice Guidance recommends licensing authorities look sympathetically on the installation of security measures, such as a screen between driver and passengers or CCTV systems as a means of providing some protection for vehicle drivers.

5.8.2 The Council will not require enhanced security or CCTV measures in vehicles as it is considered that they are best left to the judgment of the owners and drivers themselves. The hackney carriage and private hire vehicle trades are, however, encouraged to build good links with the local police force, including participation in any Crime and Disorder Reduction Partnerships.

5.8.3 If CCTV facilities are installed in a licensed vehicle, the proprietor will be responsible for ensuring the system conforms to the Data Protection Act and other relevant legislation, and displays the necessary informative notice for passengers.

## **5.9 Application Procedures**

5.9.1 The Council requires that applications must be made on a specified application form in accordance with the application procedure set out in Appendix B.

## **5.10 Consideration of Applications**

5.10.1 The Council will consider all applications on their own merits once it is satisfied that the appropriate criteria have been met and the application form and supporting documents are complete.

## **5.11 Grant and Renewal of Licences**

5.11.1 Hackney carriage and private hire vehicle licences will be granted for 12 months. However, a licence may be granted for a shorter period, should this be appropriate in the circumstances.

5.11.2 Council Officers will send a reminder letter to the current taxi proprietor or operator two months before the existing licence expires in order to assist applicants in their prompt submission of re-licensing applications, but the responsibility to ensure a vehicle is licensed remains with the proprietor or operator.

5.11.3 Officers may only accept complete applications comprising of all the necessary paperwork. If an application is received late, the applicant's vehicle may be unlicensed for a period of time during which they will be unable to use it as a licensed vehicle.

5.11.4 The licence fees payable are subject to annual review and will be published together with other Council licensing fees.

## **5.12 Environmental Considerations**

5.12.1 The DfT Guidance suggests that licensing authorities, in discussion with those responsible for environmental health issues, may wish to consider how far their vehicle licensing policies can and should support any local environmental policies that the Council may have adapted.

5.12.2 The impact of any standards should be carefully and thoroughly assessed, for example the effect on the supply of taxis and private hire vehicles in the area, to ensure the benefits of any policies outweigh the costs.

5.12.3 As part of the consultation those responsible for environmental health issues will be asked for their views.

5.12.4 At present there are no local emission controls applicable in the Council's area. If however, the Council declares an Air Quality Management Area in any part of the Borough and especially where national air quality standards have been breached as a result of vehicle emissions, local vehicle emission controls might be brought in as part of that plan.

5.12.5 In the event that local emission controls were to be required by an Air Quality Action Plan the Council would review its policy on emission standards for licensed vehicles accordingly.

### **5.13 Stretched Limousines & Speciality Vehicles**

5.13.1 Stretched limousines are elongated saloon cars that have been increasingly used for mainstream private hire work. Their use generally includes all private hire work plus special occasions such as stag and hen parties and children's birthday parties. Speciality vehicles may include vintage and themed vehicles.

5.13.2 The licensing of limousines and speciality vehicles will be approached on the basis that these vehicles have a legitimate role to play in the private hire trade, meeting a public demand. Therefore, licence applications for such vehicles will not be automatically rejected (for example just because the vehicles may be left-hand drive) and each application will be considered on its merits.

5.13.3 The Vehicle and Operator Services Agency (VOSA) have recently introduced the Individual Vehicle Approval (IVA) inspection regime, which verifies that a converted vehicle is built to certain safety and environmental standards. It is proposed that this standard is required from all limousine and specialty vehicles that do not meet the standard vehicles standards.

5.13.4 As these vehicles may not meet the usual vehicle specification, additional documentation and inspection will be needed in order that the Council's responsibility to ensure safety and suitability, prior to a licence being issued, can be met (see Appendix C).

5.13.5 The Council strongly recommends that anyone wishing to licence a limousine contacts the licensing section before purchasing a vehicle to ensure that advice can be provided as to whether the vehicle will meet the required standards, as each vehicle will be considered on its merits.

### **5.14 Contract Vehicles**

5.14.1 Effective from January 2008, the Road Safety Act 2006 has repealed section 76 of the Local Government (Miscellaneous Provisions) Act 1976, removing the exemption to be licensed as a private hire if working under a contract. The

implication is that additional vehicles will require licensing. While the Courts will provide the definitive interpretation of the law, Ashford Borough Council is following guidance issued by the Department of Transport in relation to definitions of private hire vehicles that will require licensing. Organisations that may be affected by the changes described above should also consider seeking their own independent legal advice.

### **5.15 Funeral Vehicles**

5.15.1 There is no requirement for a vehicle to be licensed where it is being used in connection with a funeral, or is being wholly or mainly used by a person carrying on the business of a Funeral Director for the purpose of funerals.

### **5.16 Wedding Vehicles**

5.16.1 A vehicle does not need to be licensed while it is being used in connection with a wedding.

5.16.2 Written certification from the Council of the relevant exemption claimed is not currently required and it is not proposed to change this arrangement.

### **5.17 Courtesy Cars**

5.17.1 All vehicles with 8 or less seats that carry passengers for hire and reward must be licensed with the Council. Although there has been some legal debate regarding this particular issue, current case law supports the view that vehicles which are used as “courtesy cars”, i.e. for transporting customers to and from hotels, night-clubs, etc. are being provided for hire and reward in the course of business, irrespective of whether or not a charge is made for such service. They should, accordingly be licensed with the local Council, as should their “operator”.

5.17.2 Those operating “courtesy cars”, i.e. for transporting customers to and from hotels, nightclubs, etc. should have an operator’s licence, and the vehicle and the driver must be appropriately licensed.

### **5.18 Livery**

5.18.1 Some Council require taxis to conform to particular requirements in terms of livery and markings, in order that they may be easily identified. Such an imposition is not considered appropriate in this Council’s area. It is felt that that the visual distinction between hackney carriages and private hire vehicles can be achieved by the appropriate signage (see Appendix A). The Council does not require that licensed vehicles be finished in a special livery or appearance, notwithstanding requirements set out in section 5.6.

## **6. Drivers - (Hackney Carriage & Private Hire)**

### **6.1 Parallel Procedures**

6.1.1 The statutory and practical criteria and qualifications for a private hire driver are broadly similar to those for a hackney carriage driver. The sections below, therefore, apply equally to private hire and hackney carriage drivers.

### **6.2 Licensed Drivers' Licences**

6.2.1 This Council issues private hire drivers' licences and joint hackney carriage and private hire drivers' licences that permit hackney carriage drivers to drive both types of vehicle.

### **6.3 Age and Experience**

6.3.1 The Guidance recommends against setting a maximum age limit for drivers provided that regular medical checks are made on them. It also considers that minimum age limits, beyond the statutory age for holding a full driver's licence are inappropriate, advising that applicants should be assessed on their merits. The Council will not impose either a maximum or minimum age limit for drivers. However, a minimum period of post-qualification experience of one year is required.

6.3.2 Any applicant under 21 years will be expected to produce proof of having passed the Government's Driving Standard Agency's Taxi/Private Hire Driving Assessment Test.

### **6.4 Testing**

6.4.1 Drivers will be required to undertake testing as part of the application procedure. Details of the tests are available in Appendix D and in the applications packs.

### **6.5 Driving Proficiency and Qualifications**

6.5.1 The Driving Standards Agency (DSA) provides a driving assessment specifically designed for hackney carriage and private hire drivers. Whilst most licensing authorities rely on the standard car driving licence as evidence of driving proficiency, others require the above-mentioned DSA or some further driving test to be taken. Authorities considering this route are asked to be mindful as to whether or not this produces benefits, which are commensurate with the costs involved for would-be drivers, in terms of both money and broader obstacles to entry to the trade. Similarly there are nationally recognised vocational qualifications for the hackney carriage and private hire trades. These cover customer care, including how best to meet the needs of people with disabilities, and there may be advantages in encouraging drivers to obtain one of these qualifications in the future.

6.5.2 A number of neighbouring local authorities have introduced the DSA test for new drivers and there has been some interest from the trade to require new drivers to undertake additional driver training as part of the application requirement, although there has been a significant number that view the test as unnecessary. In order to explore the appropriateness of the DSA taxi test, two volunteers and one Officer undertook the test in November 2011. The requirement for new drivers to pass a DSA test as part of the application process is an area that the Council would especially welcome feedback on during the consultation process.

## **6.6 Medical Examination**

6.6.1 The DfT recognises that it is clearly good practice for medical checks to be made on each driver as a condition for the initial grant of a licence and subsequent renewals. The Council has adopted the relevant DVLA medical standard i.e. 'Group 2'. This is the standard applied to the licensing of lorry and bus drivers and is considered to be best practice.

6.6.2 A medical examination by a GP, to assess an applicant's fitness to drive a licensed vehicle, is required before a licence may be granted. A DVLA Group 2 standard of medical fitness for professional drivers will be required.

6.6.3 A request form for a medical examination, which may be presented to the applicant's GP, is obtainable from the Council. The applicant will be responsible for paying the fee for the examination to the relevant surgery. On completion of the examination, the report must be submitted to the Council.

6.6.4 Existing licence holders, having presented a medical certificate upon first being granted a licence, will be required to be re-examined every three years. More frequent checks will also be necessary if, in the opinion of the medical practitioner, it is necessary.

6.6.5 Holders of current passenger service vehicle and/or heavy goods vehicle licences, where the holder is able to produce proof of current medical examination, will not be required to undergo a further medical examination.

6.6.6 Licence holders must advise the Council of any deterioration in their health that may affect their driving capabilities.

6.6.7 Where there is any doubt as to the medical fitness of the applicant, the Council may require the applicant to undergo and pay for a further medical examination by a Doctor.

6.6.8 Where there remains any doubt about the fitness of any applicant, the Council will review the medical evidence and make any final decision in light of the medical evidence available.

## **6.7 Criminal Record Bureau (CRB) Disclosures**

- 6.7.1 A criminal record check on a driver is an important safety measure and currently the Council requires new drivers to apply for an enhanced criminal records disclosure as part of the application process and for renewing drivers to repeat the application every three years. Recently the CRB has released guidance that such checks should not be at the level of an Enhanced Disclosure, due to revaluation by the CRB on who is entitled to apply for an Enhanced Disclosure.
- 6.7.2 Enhanced Disclosures can only be applied for if the person is involved in “regulated activity” and this activity does not include picking up children and vulnerable adults as a normal part of a licensed driver’s activities. The CRB acknowledge that there are certain circumstances where some drivers will be carrying out regulated activity. This may include when they transport children or vulnerable adults to or from a regulated activity and it is organised by the providers of the regulated activity or an organisation working on their behalf, e.g. a Local Authority school contract. Those carrying out regulated activity would qualify for an enhanced CRB check.
- 6.7.3 The CRB has therefore issued advice to Council’s that an Enhanced Disclosure should not be requested for every driver application, only those that are involved in regulated activity. The problem is that this would create a two tier driver licence system, which would allow certain drivers to engage in work involving regulated activity and would require additional CRB checks for those that become involved in journeys that involve regulated activity.
- 6.7.3 An Enhanced Disclosure allows Councils access to intelligence on alleged sexual assaults, rapes, terrorist activity, kidnapping, drug dealing and organised crime. A Standard Disclosure only states where somebody has been convicted of a crime. It is unable to raise the alarm if there have been multiple accusations of a sufficient concern to investigate further.
- 6.7.4 It is the Council's view, supported by the taxi trade, that the public expects all reasonable precautions to be taken when determining whether to grant a licence to drive a hackney carriage or private hire and, as drivers are exempt from Rehabilitation of Offenders Act 1974; an Enhanced Disclosure should continue to be the requirement for new drivers and for those renewing their licences.
- 6.7.5 Private Hire Drivers are obliged within 14 days to report all new convictions, official cautions, and fixed penalty notices to the Council. A similar declaration is required as part of the annual licensing process in respect to both private hire and hackney carriage drivers.

- 6.7.6 Before an application for a driver's licence will be considered, the applicant must submit an application for an Enhanced Disclosure of criminal convictions.
- 6.7.7 If a person applying for an Enhanced Disclosure has not lived in the UK for five years, then an equivalent CRB check (certificate of good conduct duly authenticated) will need to be completed by the Embassy for the country in which the applicant has been living for a period of five years.
- 6.7.8 The Council is an approved Criminal Records Bureau body. Therefore applicants can deal with the Criminal Records Bureau through the Council.
- 6.7.9 The Council is bound by rules of confidentiality, and will not divulge information obtained to any third parties. The applicant for an Enhanced CRB disclosure will be sent a separate disclosure report to their home address, while the Council will also receive a copy of the report. Information arising from disclosures will be kept only for as long as is necessary and then destroyed.

## **6.8 Relevance of Convictions and Cautions**

- 6.8.1 The Guidance recommends that in considering an individual's criminal record, authorities be encouraged to consider each case on its merits, but to take a particularly cautious view of any offences involving violence, dishonesty and sexual offences. Authorities are recommended to have a clear policy for the consideration of criminal records. For example, the number of years they will require to have elapsed since the commission of particular kinds of offences before they will grant a licence.
- 6.8.2 Guidance in relation to offences is given in Appendix E. In general terms, the more recent, serious and relevant to public safety the offence is, the less likely that an application will be granted.
- 6.8.3 A DVLA driver endorsement check will be required upon applications for new or renewal of driver licence applications, to ensure that the information held by the DVLA is in accordance with the information submitted by the applicant. The check will be made on an annual basis and the fee for the endorsement check will be incorporated into the application fee.

## **6.9 Application Procedure**

- 6.9.1 An application for a hackney carriage or private hire driver's licence must be made on the specified application form. The application procedure adopted by the Council is set out in Appendix D.
- 6.9.2 Council officers will send a reminder letter to drivers eight weeks before their existing licence expires in order to assist applicants in their prompt submission of re-licensing applications. Drivers should ensure renewal

applications are received by the Council a month in advance to ensure that licences can be processed and issued. Applications received after this date will be rejected and a new application will be required. Responsibility for ensuring renewal applications are made in time remains with the licence holder.

## **6.10 Grant and Renewal of Licences**

6.10.1 The DfT Guidance recognises that it is important, for safety reasons, that drivers should be licensed but advises that it is not necessarily good practice to require licences to be renewed annually. It sees this requirement as imposing an undue burden on drivers and licensing authorities alike. Three years is the legal maximum period allowed for a licence and is in general advocated as the best approach.

6.10.2 It is proposed in this revision that drivers' licences are issued for three years. While this proved problematic in the past for the Council, with changes to the medical and DVLA requirements, the benefits of three year licences can be obtained, whilst minimalising the risks.

6.10.3 The Guidance states some drivers may prefer an annual licence. That may be because they have plans to move to a different job or a different area, or because they cannot easily pay the fee for a three-year licence, if it is larger than the fee for an annual one. It is considered good practice to offer drivers the choice of an annual licence or a three-year licence.

6.10.4 The Council will issue licences with a duration for three years, but will take special circumstances on board if licences for one year are requested.

6.10.4 If the proposals were accepted, there would be a phased in approach to the issuing of three-year licences to ensure that all driver renewals did not fall in one year. It is proposed that three-year licences would issued when a CRB check is required. Medicals would also be required, so that all documents are due upon renewal. During the transition period, yearly licences will be issued to those not requiring CRB checks.

## **6.11 Conditions of Licence**

6.11.1 The Council is not permitted to attach conditions to a hackney carriage driver's licence. It is, however, empowered to attach such conditions to a private hire driver's licence as are considered necessary.

6.11.2 Hackney carriage drivers are subject to the Council's byelaws (see Appendix F) and joint licence holders are subject to the private hire driver's conditions.

6.11.3 It is considered that the conditions set out in Appendix G are reasonably necessary and appropriate for private hire drivers.

## **6.12 Code of Conduct & Dress Code**

- 6.12.1 The Council adopted a Code of Good Conduct for hackney carriage and private hire drivers in 2008 to ensure drivers were aware of the law, minimum standards of behaviour and dress. The revised Code is in Appendix H. The Council proposes to introduce an enforceable Dress Code to promote the professionalism of the drivers and to present an acceptable state of attire to visitors and residents of the Borough. The Dress Code is in Appendix L and views are sought by the Council on whether this is an appropriate issue for the Council to enforce.
- 6.12.2 Failure to comply with any aspect of the Code of Good Conduct or Dress Code may be addressed as part of enforcement action and as a result the penalty point system has been amended. Repeated breaches following such advice or warnings may lead to more serious consequences including, if necessary, non-renewal, suspension or revocation of licences.
- 6.12.3 The Council believed that steps that serves to enhance the professional image of the hackney carriage and private hire trade, and promotes the concept that drivers of licensed vehicles as vocational drivers is to be welcomed.

## **7. Private Hire Operators**

### **7.1 Requirements & Obligations**

- 7.1.1 Any person who operates a private hire service (who is not also a hackney carriage proprietor who permits hackney carriages to be used for private hire) must apply to the Council for a private hire operator's licence. The objective in licensing private hire operators is the safety of the public, who will be using operators' premises and vehicles and drivers arranged through them. But again, best practice, in respect of the controls required over private hire operators, is to ensure that the costs of any licensing requirements are commensurate with benefits that they seek to achieve.
- 7.1.2 A private hire vehicle may only be despatched to a customer by a private hire operator who holds an operator's licence. Such a licence permits the operator to make provision for the invitation or acceptance of bookings for a vehicle. A private hire operator must ensure that every private hire vehicle is driven by a person who holds a private hire driver's licence.
- 7.1.3 Applications for operator's licences must be made on the prescribed form, together with the appropriate fee. The Council will then decide whether the applicant is a fit and proper person to hold such a licence.

## **7.2 Criminal Record Checks**

- 7.2.1 As private hire operators (as opposed to private hire vehicle drivers) are not exempt in respect of the Rehabilitation of Offenders Act 1974, a current (less than 3 months old) Basic Disclosure from the Criminal Records Bureau or a Certificate of Good Conduct from the relevant embassy for overseas applicants will be required. A reference, covering for example the applicant's financial record, may also be required.

## **7.3 Conditions**

- 7.3.1 The Council has power to impose such conditions on an operator's licence, as it considers reasonably necessary. The standard conditions set out in Appendix I are those considered to be reasonably necessary.

## **7.4 Record Keeping**

- 7.4.1 Operators are required to keep records of each booking to, for example, enable police checks to be made if any mishap should befall a passenger and assist with the recovery of lost property to the rightful owner.
- 7.4.2 Operators must keep records in respect of all bookings, vehicles and drivers, for a period of one year. See Appendix I for more details.

## **7.5 Insurance**

- 7.5.1 The Council will check that appropriate public liability insurance has been taken out for premises that are open to the public (e.g. taxi waiting rooms).

## **7.6 Licence Duration**

- 7.6.1 Private hire operators' licences are granted for a three-year period from the date of grant, subject to the power to grant a licence for a shorter period should this be appropriate in the circumstances.
- 7.6.2 An operator can apply for a licence for the number of vehicles that they have at the time of application. An operator's licence authorises vehicles up to the number stated on the licence. If an operator wishes to add to his or her fleet above that number then an amendment would need to be applied for.
- 7.6.3 Holders of existing licences will normally be reminded, in the month preceding their expiry, when their licences are due to be renewed. However it remains the responsibility of the licence holder to renew their licence.

## **7.7 Address from which an Operator may operate**

- 7.7.1 Upon the grant of an operator's licence, the Council will specify the address from which the operator may operate. This will be the premises where the records referred to in Paragraph 7.4 above are kept and where bookings are

made. The Council will not grant a licence to an operator whose premises are located outside the borough. This is to ensure that proper regulation and enforcement measures may be taken by the Council and is in no way intended to be a restraint of trade.

- 7.7.2 The operator must notify the Council in writing of any change of his/her address, (whether this is a home address or the address from where he/she operates) during the period of the licence, within 7 days of such a change taking place or, preferably, before this takes place.
- 7.7.3 It will be the responsibility of the operator to ensure that appropriate planning consent exists for the operational address to be used for that purpose. The grant of a private hire operators licence will not imply that such consent is necessary or likely to be granted, as such determination will be subject to any appropriate planning application and consultation process.

## **8. Disciplinary and Enforcement Measures**

### **8.1 Enforcement**

- 8.1.1 It is recognised that well-directed enforcement activity by the Council benefits not only the public but also the responsible members of the hackney carriage and private hire trades. The DfT accepts that the resources devoted by licensing authorities to enforcement will vary according to local circumstances. They remind authorities, however, that it is desirable to ensure that hackney carriage and private hire enforcement effort is at least partly directed to the late night period, when problems such as touting tend most often to arise.
- 8.1.2 With a view to balancing the promotion of public safety with the need to permit individuals to safeguard their livelihood without undue interference, the Council will only intervene where it is necessary and proportionate to do so.
- 8.1.3 The Taxi Licensing and Enforcement Policy & Practice set out at Appendix J will be used to ensure that its enforcement effort is reasonable, transparent and well directed.

### **8.2 Disciplinary Hearings**

- 8.2.1 Disciplinary matters, except in the case of breaches of vehicle requirements, will ordinarily be referred to the Licensing and Health and Safety Committee or dealt with by Officers. One of the functions of the Committee is to consider the impact of transgressions of the law on the fitness of an individual to hold a hackney carriage or private hire licence, and to take the action appropriate to the circumstances.

### **8.3 Penalty Points Scheme**

- 8.3.1 Whilst the operation of a successful hackney carriage and private hire vehicle service is important to the economic well-being of the Borough, it is equally important that the service provided by the trade is properly regulated in order to instil confidence in the travelling public who wish to use the service.
- 8.3.2 The Council clearly has a responsibility to ensure that all drivers, owners and operators of vehicles adhere to basic minimum standards and to do this in a consistent and transparent manner. These standards are defined by legislation, licence conditions, codes or byelaws adopted by the Council. Together they identify what is required of the trade and help to ensure that a consistent approach is taken, by Council Officers, in their application.
- 8.3.3 The Council has found that an effective means of applying the conditions at a local level is through a penalty points scheme. This acts as a first step in ensuring compliance with the conditions, and serves as an “early warning” system to drivers and owners or operators who see fit to ignore their responsibilities or fail to meet the requirements of the conditions. Points are accumulated on a sliding scale dependent upon the type of offence or breach of licence conditions. These penalty points then remain "live" for a period of a year (drivers and proprietors) or two years (operators) from the date they are imposed so that only points accumulated in, for example, a rolling 24 months period are taken into account. If a driver, proprietor or operator accumulates, twelve or twenty four (as appropriate) more points within a period of two years from the date they are imposed, he/she would then be brought before the Committee, who have a range of options open to them, depending on the circumstances.
- 8.3.4 It is believed that the introduction of a penalty points scheme has assisted the trade in maintaining its high standards. The Penalty Points System does not however compromise the Council's ability to enforce breaches of statute or local conditions in the Courts should an offence warrant such action. A copy of the revised penalty points system can be found in Appendix K.

### **8.4 Range of Powers**

- 8.4.1 The Council may take steps, upon receipt of evidence that an offence has been committed in relation to a hackney carriage, private hire or operator's licence. A breach of a condition Hackney Carriage and Private Hire Licensing Policy Statement amounts to an offence in this context. Details of the Council's taxi enforcement policy are in Appendix J.

## **9. Delegated Powers**

### **9.1 Licensing and Health & Safety Committee**

9.1.1 The Licensing and Health and Safety Committee of Ashford Borough Council is responsible for the management of the hackney carriage and private hire licensing regime in the borough.

## **9.2 Delegated Functions**

9.2.1 The Committee has delegated responsibility for exercising the Council's functions in respect of the following:

- Sections 47, 57, 58 60 and 79 of the Local Government (Miscellaneous Provisions) Act 1976; and as to private hire vehicles, sections 48, 57, 58, 60 and 79 of the Local Government (Miscellaneous Provisions) Act 1976
- Power to licence drivers of hackney carriages and private hire vehicles under sections 51, 53, 54, 59, 61 and 79 of the Local Government (Miscellaneous Provisions) Act 1976
- Power to licence operators of hackney carriages and private hire vehicles under Sections 55 to 58, 62 and 79 of the Local Government (Miscellaneous Provisions) Act 1976

Accordingly it will deal with applications and disciplinary matters referred to it by Licensing Officers.

9.2.2 The Council's Environmental Health Manager has delegated responsibility, in so far as it relates to hackney carriage or private hire, in respect of the licensing and registration functions of the Council listed in Schedule 1 to the Local Authorities (Functions and Responsibilities) (England) Regulations 2000 (as amended) for: -

- Deciding applications for authorisations, registration, consents, licences or certificates of approval
- Serving notices and take consequential action, including carrying out work in default
- Issuing simple cautions
- Recommending the institution of legal proceedings
- Authorising officers to exercise statutory functions

9.2.3 The Environmental Health Manager may further delegate the power to grant or suspend refuse or revoke licenses. Licensing Officers are permitted to issue oral and written warnings, and cautions and may instigate prosecutions wherever appropriate.

9.2.4 In general terms where an applicant is aggrieved by the Council's decision to refuse to grant a licence or by any conditions imposed on a licence the

applicant has a right of appeal to the Council's Appeal Committee and to the Magistrates' Court within 21 days of the applicant being notified of the Council's decision.

## **10. Fares & Fees**

### **10.1 Fares - General**

10.1.1 Councils have the power to set taxi fares for journeys within their area (there is no power to set fares for private hire vehicles). The DfT sees it as good practice to review the fare scales at regular intervals, including any graduation of the fare scale by time of day or day of the week. It suggests that in doing so authorities should pay particular regard to the needs of the travelling public, with reference both to what it is reasonable to expect people to pay but also to the need to give taxi drivers sufficient incentive to provide a service at the times when it is needed. It recognises that there may well be a case for higher fares at times of higher demand.

10.1.2 Taxi fares are a maximum, and in principle are open to downward negotiation between passenger and driver. Such negotiations are, however to be discouraged at ranks or for on street hailings as they could lead to confusion and arguments.

### **10.2 Fares - Prescribed rates**

10.2.1 The driver of a hackney carriage vehicle, whether by agreement or otherwise, must not charge any fare greater than the rate prescribed by the Council. The driver/operator of a private hire vehicle may make their own agreement with the hirer as to the fare for a particular journey.

10.2.2 There are however, no provisions in the relevant legislation or this policy, which prevent the driver of a hackney carriage or private hire vehicle from charging less than the fare shown on the meter.

10.2.3 It is not proposed to introduce provisions that would prevent the driver of a hackney carriage or private hire vehicle from charging less than the fare shown on the meter.

### **10.4 Fares - Review**

10.4.1 Fares rates are reviewed no more than once per year between December and February with any change agreed being implemented in April or May.

### **10.5 Receipts**

10.5.1 A driver must, if requested by the passenger, provide them with a written receipt for the fare paid.

## **10.6 Licence Fee Structure**

10.6.1 The guidance does not deal with the issue of licensing fees at all. It is, however, generally recognised that the fees set for all hackney carriage and private hire licences should be such as to ensure that the costs of the service, including the cost of issue and administration will, so far as possible be met from fee income. It is, on the other hand, not lawful for the Council to seek to make a profit from licence fees that are within its discretion. In particular, with regard to the fees charged for hackney carriage and private hire vehicle and operator licences, the legislation provides that these should be sufficient to cover the costs of inspecting the vehicles, providing hackney carriage stands, and administering the control and supervision of hackney carriages and private hire vehicles.

10.6.2 The fees payable for the grant and renewal of hackney carriage and private hire licences will be reviewed annually as part of the budgetary process and a public notice will be placed in the local newspaper. Licence holders will be notified of any changes and the current scale of fees will be supplied to new applicants at the time of application.

## **11. Taxi Ranks**

### **11.1 Appointed Ranks**

11.1.1 A number of ranks for hackney carriages have been designated within the Ashford Borough Council area and these are listed below:

Park Street (Upper)	Rank for 9 cars
Park Street (Lower)	Rank for 8
International Station	Rank for 7 cars
Domestic Station	Rank for 2 cars plus feeder rank
Tufton Street	Rank for 2 cars
Bank Street	Rank for 8 cars
High Street (Lower)	Rank for 9 cars – only in operation when area in evenings & Sundays

11.1.2 As part of the consultation for this policy revision, views are sought on the provision of taxi ranks with a view to determining whether current rank provision on public land is sufficient and to examine possible new rank sites.

## **11.2 Waiting on Stands**

11.2.1 It is an offence for any person to cause or permit any vehicle other than a hackney carriage to wait on any stand for hackney carriages. Drivers of hackney carriages may only wait on a stand whilst plying for hire or waiting for a fare; drivers who park on a stand and leave their vehicle unattended are committing an offence.

## **Appendix A**

### **Hackney Carriage & Private Hire Vehicles Specification and Schedule of Conditions**

#### **1.1 Introduction**

- 1.1 The following details specify the minimum standard requirements for vehicles licensed for hire or reward by Ashford Borough Council. They have been set down for the purposes of indicating to any prospective licence holder what will be acceptable, under delegated powers, by Licensing Officers and this should be borne in mind before a vehicle is purchased. Any vehicle presented for licensing which does not comply may only be accepted after consideration of the merits of the application by the Council. The applicant will, in these circumstances, be required to submit a persuasive and substantial case for departing from the policy.

#### **1.2 Vehicle Safety Certification**

- 1.2.1 To ensure that all vehicles licensed by Ashford Borough Council are of a recognised safety standard all licensed vehicles must be certified by the Vehicle Certification Agency (VCA) to one of the standards listed below. The vehicle must be M1 classified i.e. it was built to be a passenger carrying vehicle.

#### **1.3 EC Whole Vehicle Type Approval**

- 1.3.1 EC Approval of most road vehicles is based around “whole vehicle” framework Directive 92/53/EEC and this specifies the range of approximately 50 aspects of the vehicle that must be approved including testing of brakes, seats, emissions etc. This is regarded as the highest standard of safety, and 98% of all passenger cars entering service in Great Britain are type approved to meet harmonised European standards.

#### **1.4 UK Low Volume Type Approval**

- 1.4.1 Low volume type approval is a special scheme to enable vehicles made in small numbers to be registered in the UK. The operation of the scheme has been tailored to suit the needs of the smaller manufacturer. Under this Type Approval system, a prototype is tested. If it meets the requirements and the production arrangements also pass conformity inspection, then vehicles of the same type can be sold and registered without each one having to be tested and inspected. This approval currently represents “best practice” for taxi converters. Many taxi conversions are available, some wheelchair accessible, manufactured under Low Volume Type Approval. These vehicles meet the highest safety standards available.

## **1.5 Individual Vehicle Authorisation**

1.5.1 This approval is also for individual vehicles that do not have European Type Approval. However, as well as the visual examination carried out on the vehicle, additional documentary evidence that the vehicle complies with the Type Approval standards has to be produced. The Vehicle Inspectorate can accept an equivalent standard certificate by or on behalf of a foreign authority, or can do a comparison between two vehicles to satisfy themselves that the vehicle meets this standard. Some destructive tests are done on one vehicle and then every other vehicle of this make is given a visual inspection to check that it is of the same vehicle construction as the one that was destructively tested. From October 2003 evidence of crashworthiness has also been required.

## **1.6 Other Vehicle Requirements**

1.6.1 When licensing hackney carriage and private hire vehicles the Council has to consider the need for safety, convenience, and comfort of passengers in vehicles that operate in rural, urban and motorway environments. The size and engine capacity have also to be considered given that all vehicles are required to carry their licensed number of passengers together with their luggage. The Council considers that a vehicle should be of manufacturers' original specification and shall be constructed and designed: -

- For the Carriage of not less than 4 and not more than 8 passengers with the provision of a seatbelt for each passenger
- With the seat provided for each passenger having a minimum width of 405 millimetres (16 inches) measured across its narrowest part
- Not to be left-hand drive. Right hand drive passenger vehicles offer the driver clearer and safer vision in an overtaking manoeuvre, and also eliminate the need for a front seat passenger to alight from the vehicle into the road
- With an engine having a capacity of at least 1600 cc. including vehicles badged by the manufacturer as "1.6" models
- To have windows to the side and rear providing natural light to passenger compartment

## **1.7 Compliance Testing**

1.7.1 As well as holding a suitable approval certificates (see Vehicle Certification above), all vehicles must be submitted for inspection and certified fit for public use, before the issue of a licence. Within the Borough of Ashford, this is known as Compliance Testing and is required every 6 months for every licensed vehicle after initial testing. It is the proprietor's responsibility to

present the vehicle for inspection and testing by or on behalf of the Council at such time and at such place within the Borough as the Council may by notice reasonably require.

## **1.8 Licence Plate**

1.8.1 The proprietor must ensure that the licence plate provided and allocated to him by Ashford Borough Council is maintained in a clear and legible condition and is affixed to the outside of the Carriage, on or adjacent to the rear bumper or in such other position as may be approved by the Council. Also;

- The Council must be informed should the licence plate be lost broken or defaced
- The Proprietor shall not cause or permit the vehicle to be used or operated with the said plate so defaced that any figure or material particular is illegible
- The Proprietor must notify the Council of any change of address forthwith
- The Proprietor must notify the Council of any intended change in use of the specified vehicle, or any change in the particulars supplied at the time of application for the licence and of any modifications made to the vehicle, including seating arrangements

## **1.9 Licence**

1.9.1 The licence must be kept in the possession of the Proprietor and be produced on request to an authorised officer of the Council, or any Police Officer. Also;

- In the event of loss of or damage to this licence the Council must be informed immediately so that a replacement can be issued
- On revocation, expiry, transfer or suspension of the licence, the licence and the plate issued in respect of the vehicle must be returned to the Council forthwith upon service of a notice on the Proprietor
- The licence must not be altered or defaced in any way
- The proprietor must notify the Council of any change of address forthwith
- The proprietor must notify the Council of any intended change in use of the specified vehicle, or any change in the particulars supplied at the time of application for the licence and of any modifications made to the vehicle, including seating arrangements

## **1.10 Ownership and Insurance**

1.10.1 The proprietor shall ensure that the vehicle is not be used in the district unless there is in force in relation to the vehicle a policy of insurance complying with the requirements of the Road Traffic Acts and which covers the vehicle for the Carriage of passengers for hire or reward. The Certificate of Insurance must be produced upon request by an authorised officer of the Council, or by a Police Officer. On renewal of the policy, a copy should be lodged with the Council at the earliest opportunity.

## **1.11 Age**

1.11.1 Vehicles will not normally be accepted for licensing, or continue to licensed, after seven years from the date of their first registration. Certain purpose built taxis e.g. those from the TX range and the Mercedes Vito Taxi, which are constructed rather than adapted for the specific purpose of conveying members of the public will be accepted for licensing up to ten years from first registration, providing their mechanical condition and appearance is satisfactory.

1.11.2 All other purpose built taxis, e.g. Peugeot E7's and Eurocabs will be considered on a case-by-case basis. Where the age of a vehicle is not identifiable, the age will be calculated as three years old at the date of registration in line with the policy of the DVLA.

1.11.3 Extensions may be given to vehicles older than 7 or 10 years (as appropriate) upon renewal, but this will be assessed on a case-by-case basis. Extensions will be given for six months and consideration will only be given to vehicles with no visible defects, dents or blemishes to the external bodywork or internal trim.

## **1.12 Doors**

1.12.1 In the interest of safety each vehicle should have a minimum 4 doors, which are capable of being opened from the inside.

## **1.13 Seating**

1.13.1 Seating in saloon and estate cars does not normally create concern. Multi-purpose vehicles (MPV's) or people carriers offer a bewildering number of seat configurations often to match the owner's needs. In the interests of the safety of the passengers it is necessary to examine these seating arrangements to ensure that in the event of a collision or fire there is unobstructed egress from the vehicle. If MPV's or people carriers have individual seats, it is may be necessary to remove a second row middle seat to permit improved access to the rearmost seats. This however would reduce the maximum permissible passengers by one. Alternatively, in the event of an

emergency, passengers should be able to exit the vehicle through the rear and emergency brake glass hammers should be fitted.

#### 1.13.2 Therefore:

- The passenger carrying capacity will be at the discretion of the Council
- The rear seat of the vehicle must be a minimum of 1.22 meters long (405 millimetres, 16 inches per person)
- All seats must be fitted with fully operational seat belts
- The number of passenger seats must remain as stated on the vehicle licence
- There must be no alteration to the seating configuration without notifying the Council
- All seats must be forward or rear facing
- All vehicles must be able to seat a minimum of 4 passengers in comfort with sufficient legroom for all passengers
- The seat covering must be clean and in a good state of repair

#### 1.14 **Maintenance, Appearance and Condition of the Vehicle**

The vehicle and its fittings must, when being presented for inspection and at all times during when it is licensed and available for hire:

- Be safe
- Be tidy
- Be clean
- Comply with all relevant statutory requirements applicable to the class of vehicle to which it belongs including, but without prejudice to the Motor Vehicle (Construction and Use) Regulations which currently apply
- The vehicle must be maintained throughout the term of the vehicle licence to a high standard of appearance to the complete satisfaction of the Council

#### 1.15 **Tyre Safety**

1.15.1 In view of the high mileage covered by Hackney Carriage and Private Hire vehicles and the interval between examinations, the depth of tyre tread on all vehicles must be a minimum of 2mm.

## **1.16 Exterior Appearance**

1.16.1 All paintwork will be professionally finished and the vehicle free from dents and damage to either bodywork or fittings. Bare metal, primer paint, visible rust and perforations will not be permitted.

## **1.17 Interior Appearance**

1.17.1 The interior of the vehicle should always be in a clean and tidy state and fit for purpose.

- Carpets, upholstery and cloth trim are to be clean and undamaged. Good quality seat covers and carpet mats may be used, provided that each is a matching set, of a colour co-ordinating with the vehicle and kept in good condition
- All plastic fascia, door linings, roof linings and trim are to be kept free from marks, stains and damage
- All doors, locks and windows are to be in full working order and in good condition
- All interior lights and fascia illumination are to be in full working order and in good condition
- All windows are to be kept free of dirt, grime and marks
- Boot space/luggage areas to be kept clean and vehicle equipment properly stowed

1.17.2 If in the opinion of the Council, a vehicle is in such a condition internally or externally as to render its use by the public as undesirable, the Council shall notify the proprietor thereof whereupon the proprietor shall not use or cause or permit the use of the vehicle until the Council has re-inspected the vehicle and confirms that it has been brought to a standard suitable for public use.

## **1.18 Tinted Glass**

1.18.1 Vehicles are manufactured and produced with window glass in various tints or film coatings from clear to jet-black, the latter making it impossible to view into the passenger compartment. The removal of film coating from windows is far less expensive than the changing of glass. These heavily tinted windows may be of concern to women passengers travelling alone, and parents of children travelling unaccompanied. Many of the vehicles supplied with tinted glass are acceptable, however in the interests of safety and reassurance of passengers, tinted glass or mirrored glass that restricts all view into the passenger compartment will not be accepted on licensed vehicles.

## **1.19 Fire Extinguisher & First Aid Kit**

1.19.1 All vehicles must carry a standard motorist's first aid kit and an easily accessible and compliant fire extinguisher, both of which must be in a serviceable condition.

## **1.20 Accidents**

1.20.1 In the event of a vehicle being involved in an accident, the Proprietor must inform the Council as soon as reasonably practicable and, in any case within 72 hours of any accident causing damage materially affecting the safety, performance or appearance of the vehicle or the comfort or convenience of persons carried therein. If the damage to the vehicle is such that the Council reasonably considers the damage to be extensive enough to seriously affect the general appearance and/or use of the vehicle and so notifies the Proprietor, the vehicle shall immediately be withdrawn from service and shall not be used until such time as the permanent repairs are completed and a compliance test conducted.

## **1.21 Disability Access**

1.21.1 In the case of all hackney vehicles that are built or adapted for disabled passengers, the design of the vehicle should ensure that any wheelchair is loaded from the side rather than the rear of the vehicle.

1.21.2 Where a vehicle is utilised for the carriage of passengers in a wheelchair, the following conditions shall apply:

- Loading of the wheelchair is from the side or rear but not rear only
- Access to and exit from the wheelchair position must not be obstructed in any manner at any time except by wheelchair loading apparatus
- Wheelchair internal anchorage must be of the manufacturer's design and construction and secured in such a position as not to obstruct any emergency exit
- A suitable restraint must be available for the occupant of a wheelchair
- Access ramps or lifts to the vehicle must be securely fixed prior to use, and be able to support the wheelchair, occupant and helper
- Ramps and lifts must be securely stored in the vehicle before it may move off

1.21.3 Any equipment fitted to the vehicle for the purpose of lifting a wheelchair into the vehicle must have been tested in accordance with the requirements of the Lifting Operations and Lifting Equipment Regulations 1998 (S.I. 1998/2307).

Any such equipment must be maintained in good working order and be available for use at all times.

- 1.21.4 Where a vehicle is designed or adapted to carry a wheelchair, the proprietor/operator shall ensure that the driver has received sufficient training to load and convey wheelchair bound passengers.

## **1.22 Luggage in Estate Cars**

- 1.22.1 Estate cars cause a safety concern when stacking luggage in the vehicle causing a potential danger to passengers in the event of harsh braking or an accident. It is recommended that luggage should not be stacked above the height of the rear seats unless the vehicle is designed, or fitted with suitable luggage restraints or covers to prevent luggage from entering the passenger compartment.

## **1.23 Roof racks and roof mounted luggage boxes**

- 1.23.1 These offer convenience that has to be balanced with safety. Most roof-mounted devices have weight limits. These are set to ensure the weight carried on the roof or the luggage boxes does not significantly alter the vehicle's driving characteristics by changing the vehicle's centre of gravity. If weight is added to the roof of a vehicle beyond a manufacturer's recommendation, the centre of gravity is moved upwards and vehicle may become unstable. Therefore as the permissible weight for roof racks and luggage boxes varies from vehicle to vehicle, it is recommended that any Proprietor who wishes to use either must apply to the Council for permission. The Licensing Officer will then make the necessary enquiries, and the licence shall be amended to show the maximum permitted weight.

## **1.24 Trailers**

- 1.24.1 Trailers may also be used as a means of carrying luggage. There are no British Standards that define the specification requirements of trailers or a specific British Standard that defines how they may be tested for roadworthiness but they are subject to The Road Vehicles (Construction and Use) Regulations 1986. Common sense dictates that if the towing vehicle is regulated by the Council it would follow the any towed trailer should be the same. Therefore any authorised trailer should be presented for compliance check at same time as the licensed vehicle to ensure that it is roadworthy. All vehicles have a maximum permissible towing weight, and this differs as to whether the trailer has its own braking system or not. It is recommended that any Proprietor who wishes to use a trailer must apply to the Council. The Licensing Officer will make the necessary enquiries, which may require the vehicle and trailer being examined to establish its towing weight, and the vehicle licence amended to show this.

## **1.25 Taximeters**

1.25.1 The proprietor of a hackney carriage shall ensure the vehicle is fitted with a taximeter approved by the Council, and that meter shall be maintained in a sound working condition at all times. The taximeter shall be set for up to the current maximum tariff agreed by the Council and no unauthorised adjustment of the meter shall be made. The proprietor shall ensure the "For Hire" sign or other illuminated sign is extinguished when the fare commences, and the taximeter brought into operation.

1.25.2 The taximeter shall:

- Be of the clock calendar type or an approved taximeter and charge no more than the wording of the Councils current maximum fare tariff
- Not be altered or tampered with except with the approval of the Council and must be retested by the Council if it is altered
- Show the fare recorded on the taximeter in plainly legible figures, and the word "FARE" shall be clearly displayed so as to apply to such figures
- Be kept surely fixed in such a position so that the fare recorded is visible to all passengers within the vehicle at all times, and the figures shall be illuminated for this purpose whenever necessary

1.25.3 A private hire vehicle may also be fitted with a taximeter, approved by the Council, at the discretion of the Proprietor.

1.25.4 The taximeter shall: -

- Be of the clock calendar type or an approved taximeter and charge no more than the wording of the proprietor's current maximum fare tariff
- Not be altered or tampered with except with the approval of the Council and must be retested by the Council if it is altered
- Show the fare recorded on the taximeter in plainly legible figures
- Be kept surely fixed in such a position so that the fare recorded is visible to all passengers within the vehicle at all times, and the figures shall be illuminated for this purpose whenever necessary

## **1.26 Fare Tables**

1.26.1 A hackney carriage proprietor shall ensure that a copy of the current fare table supplied by the Council is on display inside the hackney carriage at all times and that table is not concealed from view or rendered illegible when the vehicle is for hire.

1.26.2 If a taximeter is fitted within a private hire vehicle, details of the tariff of fares to which it is calibrated shall be clearly on display within the vehicle.

### **1.27 Two Way Radios**

1.27.1 The proprietor shall ensure that any radio equipment fitted to the licensed vehicle is at all times kept in a safe and sound condition and maintained in proper working order.

### **1.28 Mobile Telephones**

1.28.1 Mobile telephones may only be used with a hands-free kit.

### **1.29 Smoking**

1.29.1 Under the Health Act 2006 and the Smoke-free (Signs) Regulations 2007, all hackney carriage and private hire vehicles are required by law to be smoke free and are also required to display the prescribed no-smoking signs and the signage must be displayed in a prominent position.

1.29.2 Hackney carriage and private hire vehicles are required to be smoke free at all times, whether they are being used for work or for private use.

1.29.3 The Smoke-free (Vehicle Operators and Penalty Notices) Regulations 2007 set out the persons who will have legal duties to cause any person who is smoking on a smoke free vehicle to stop smoking, namely:

- The driver
- Any person with management responsibilities for the vehicle
- Any person in a vehicle who is responsible for order or safety in it

### **1.30 Insurance**

1.30.1 A copy of a vehicle's current valid insurance document must be kept with the vehicle and available for inspection by a Licensing Officer.

## **2 Conditions Relevant to Hackney Carriage Vehicles Only**

2.1 A hackney carriage vehicle can only be driven by a person licensed to drive that particular type of vehicle, and that driver's licence having been issued by the Council. A Joint Licence permits the driver to drive both types of vehicle.

2.2 No hackney carriage shall be used in the district under a contract or purported contract for private hire except at a rate of fares or charges not greater than that fixed by the Council in relation to hackney carriages, and when any hackney carriage is so used the fare or charges shall be calculated from the point in the borough at which the hirer commences his journey.

- 2.3 The proprietor of a hackney carriage vehicle must ensure that the driver lodges his hackney carriage driver's licence with the proprietor until the driver ceases to drive for that proprietor.
- 2.4 Full livery advertising is allowed on the exterior of hackney carriages subject to the following restrictions:
- Nothing shall be advertised which might cause reasonable offence to members of the public
  - The Council reserves the right to require that any advertisement it deems unsuitable be removed forthwith
- 2.5 Hackney carriage vehicles will be issued a device required to activate the lowering and rising of the barriers situated in restricted roads. Each device may only be used in conjunction with the hackney carriage plate that it was issued to. Furthermore;
- The device must only be used whilst the licensed vehicle is being used in conjunction with journeys associated with hire and reward, not for personal journeys
  - It is the proprietor's responsibility to ensure the device is fitted to the licensed vehicle
  - The device must not be transferred to any alternative vehicle without the prior approval of the Council
  - On revocation, non-renewal or suspension of the licence, the device must be returned to the Council for deactivation
  - Damage to (or theft of) any device must be reported to the Council without delay
  - The licence holder will allow a Licensing Officer to inspect and if necessary remove the device at any reasonable time upon written or verbal notice
  - The issuing of a replacement device may incur a fee
- 2.6 Hackney carriages shall be fitted with an approved roof sign which: -
- Indicates that they are a taxi
  - Is capable of being illuminated when the vehicle is plying for hire, such illumination to be extinguished when the taximeter operates
  - Unless integral to the bodywork of the vehicle, is positioned in the centre of the roof

### **3 Conditions Relevant to Private Hire Vehicles Only**

- 3.1 No vehicle will be accepted for licensing as a private hire vehicle if its appearance is likely to create confusion in the minds of the travelling public that it may be a hackney carriage. For this reason, any operator intending to provide private hire services should avoid vehicles, which are recognisable as purpose built “London style” cabs, or similar vehicles.
- 3.2 A private hire vehicle can only be driven by a person licensed to drive that particular type of vehicle, and that driver’s licence having been issued by Ashford Borough Council. A Joint Licence permits the driver to drive both types of vehicle.
- 3.3 The operator of a private hire vehicle must ensure that the driver lodges his private hire driver’s licence with the proprietor until the driver ceases to drive for that proprietor.
- 3.4 Private hire vehicles will not be permitted to display any type of roof sign.
- 3.5 Private hire vehicles are only permitted to display on the outside or inside of the vehicle the following:
- Vehicle licence plate
  - Approved Kent County Council (KCC) School Transport Sign when operating in conjunction with school contracts
  - Any other thing required to be displayed by law
- 3.6 Private hire vehicles are permitted restricted first party advertising subject to the following restrictions:
- The advertising material shall be restricted to the metal surface of the drivers and front passengers’ doors. If advertising material is to be displayed, it must include the words “ADVANCE BOOKING ONLY” OR “PRIVATE HIRE ADVANCE BOOKING ONLY”. It can include the Proprietor’s company name, logo, website, email address or telephone number
  - The advertising material shall not contain the words “TAXI”, “HACKNEY”, “CAB” or “FOR HIRE”. This restriction includes the use of the words when used within the proprietor’s company name, log, website or email address
  - The advertising material shall be non-reflective
  - Nothing shall be advertised which might reasonably cause offence to members of the public

- 3.7 Private hire vehicles are not permitted to display on the outside or inside of the vehicle in such a manner to be conspicuous from the outside any other signs, telephone numbers or other advertising material. (i.e. business cards on the dashboard).

## Driver & Operator Licence Procedures

### 1 Application for New Licence to drive a Licensed Vehicle

- 1.1 New applications are usually for private hire licenses. For those wishing to be considered for a hackney carriage licence, it is recommended that they have held a private hire drivers licence for at least 6 months before undertaking the hackney carriage test.
- 1.2 The applicant will complete, in full, the application for a licence to drive hackney carriage/private hire vehicle, which will be submitted and accompanied by a full UK Drivers Licence that has been held for at least 12 months. This application form must be completed in full and signed as a Statutory Declaration. Any omissions, whether knowingly or recklessly is an offence under the Local Government (Miscellaneous Provisions) Act 1976 and as such it is highly likely that the application would not be successful.
- 1.3 Where applicants have recently arrived from other countries, they will be required to convert their existing driving licence to a UK issue, either by straight transfer or by undertaking an appropriate driving test. The Council requires that the twelve-month qualifying period for holding such a licence will start from the time of the conversion.
- 1.4 An applicant who has held a licence from another country for 12 months or more and has converted it to a UK licence may obtain an exemption from the 12 months qualifying period by passing the DSA test and providing proof that they have been driving for 12 months in that other country.
- 1.5 The applicant shall submit the following in person to one of the Council Offices (Gateway Plus in Ashford, Gateway in Tenterden) for checking:
  - A completed application form
  - A licence application fee. Fees will be determined annually and publicised separately
  - Four colour standard passport photographs
  - A full UK Drivers licence
  - A certificate issued from the Driving Standards Agency (DSA) that they have taken and passed the Agency's Taxi/Private Hire Driving Assessment Test. (Details can be found at [www.dsa.gov.uk](http://www.dsa.gov.uk))
  - A medical certificate indicating they physically fit and able to fulfil the role to DVLA Vocational Group 2 Standards

- A DVLA Data Subject Check form that permits the Council to confirm the individual's driving history
- A completed application form for an Enhanced Criminal Records Bureau Check accompanied with the requisite fee and documentation to confirm identity and address
- In the event that the applicant has not resided within the UK in the last 12 months, a Certificate of Good Conduct from their relevant embassy or equivalent document issued and authenticated by the appropriate embassy will also be required
- If the documentation is complete, photocopies will be taken of all original documents and returned to the applicant

1.6 Before the application proceeds further, the applicant will be required to undergo a test of their topographical knowledge of villages, major routes and places of interest within the borough of Ashford, the Highway Code and the law/conditions relating to private hire.

1.7 Where the applicant fails 3 consecutive tests within a 4-month period, it will be unlikely that the applicant has the appropriate skills and attributes to become a licensed driver with this Council. Further testing would not normally take place for at least 12 months to enable the applicant to develop the necessary skills unless there are exceptional circumstances.

1.8 If a driver is not able to satisfactorily complete the topographical and other tests due to difficulties with spoken English they may be required to take language instruction as a pre-requisite to re-sitting these tests.

## **2 Application for a Joint Licence (Hackney Carriage & Private Hire)**

2.1 Applicants for a joint licence will need to undergo a hackney knowledge test, conducted by the Council, for which a fee is charged. This test will require a more in depth knowledge of the borough's roads, streets, and places of interest, hotels, pubs and clubs. It will also include questions on the Highway Code and the law/conditions relating to hackney carriages and private hire.

## **3 Application for Renewal of a Licence to Drive Hackney Carriage/Private Hire Vehicle**

3.1 The applicant will complete in full, the application for licence to drive hackney carriage/private hire vehicle form, duly signed as a **Statutory Declaration**. This will then be submitted and accompanied by the following:

- A licence application fee. Fees will be determined annually and publicised separately

- Two colour standard passport photographs
- A DVLA Data Subject Check form that permits the Council to confirm the individual's driving history
- A medical certificate indicating they physically fit and able to fulfil the role to DVLA Vocational Group 2 Standards
- A completed application form for an Enhanced Criminal Records Bureau Check, together with the requisite documentation

3.2 An Enhanced Criminal Records Bureau check will need to be submitted in person to Gateway Plus (or other Council offices) for checking.

#### **4 Application for Private Hire Vehicle Operator's Licence**

4.1 The applicant will complete, in full, the application for private hire vehicle operator's licence form, which will be submitted and accompanied by the following.-

- Proof of public liability insurance (if applicable)
- The licence application fee. Fees will be determined annually and publicised separately
- If the applicant has not previously been through the driver's application process, a Basic Criminal Records Bureau Check (less than 3 months old) for each person named on the application form

4.2 If a Criminal Records Bureau check is required this application will need to be submitted in person through [www.disclosure.scotland.gov.uk](http://www.disclosure.scotland.gov.uk) and the original to be submitted as part of the application.

#### **5 Applications – General**

5.1 If the application form contains any details to suggest that any relevant convictions or cautions have been imposed on the applicant since the licence was last issued or renewed, Licensing Officers will discuss the matter with the applicant. At that time it will be decided whether the application is likely to be successful in the light of the Council's Policy of the Relevance of Convictions detailed in Appendix E, The CRB check will be applied for before any further consideration of the application.

5.2 An Enhanced CRB Disclosure of criminal convictions in respect of each licensed driver of a hackney carriage or private hire vehicle is required on initial licence application and upon renewal.

5.3 The Council may request another disclosure at any time if a further check is considered necessary.

- 5.4 When the CRB check has been returned, the application will be considered in the light of the information provided. The information received from the CRB will be used to ascertain whether the information given on the original application form was correctly and truthfully provided. It is therefore necessary to ensure that details of ALL convictions and cautions are provided at the initial stage. A serious view will be taken of any application that seeks to conceal any caution or conviction in order to obtain a licence. This is a criminal offence and, as such, is likely to lead, not only to consideration of the applicant as not being a “fit and proper person”, but criminal proceedings. Any information relating to criminal background will be kept only for as long as it is necessary for assessment purposes.
- 5.5 In the event that there are no relevant convictions or cautions held, the applicant will be considered to be a “fit and proper person” and the matter will be determined by the issue of the driver’s/operator’s licence.
- 5.6 Applications considered by the Council will result in either the determination of the applicant as a “fit and proper person”, indicated by the issue of a licence, or the application being refused. In these circumstances, the applicant has the right of appeal to the Council’s Appeals Committee and to the Magistrates’ Court, such appeal to be lodged within 21 days of the decision being notified.
- 5.7 In view of the special considerations when dealing with those passengers of differing physical abilities, it may be necessary to test the awareness of the applicant of these issues. In particular, and without prejudice to the generality of this paragraph, consideration may be given to the differing types of vehicle likely to be used by the individual concerned and the difficulties arising in each case.

## Appendix E

### Guidelines Relating to the Relevance of Previous Convictions

#### 1 General Policy

- 1.1 Each case will be decided on its own merits.
- 1.2 The Council has a duty to ensure, so far as possible, that applicants are ‘fit and proper’ persons to hold licences and in the absence of a judicially approved definition of “fit and proper”, the Council use the test of:

*Would the Officer charged with the ability to grant a licence allow their son or daughter, spouse or partner, mother or father, grandson or granddaughter, or any other person for whom they care, to get into a licensed vehicle with the applicant alone?*

The wording of this test originates from Button, J. T. H. (1999), Taxis – Licensing Law and Practice, Butterworths, London.

- 1.3 The overriding consideration is the safety of the public. The Council has a duty to ensure so far as possible that those licensed to drive hackney carriage and private hire vehicles are suitable persons to do so, that they are safe drivers with good driving records and adequate experience, sober, courteous, mentally and physically fit. An aspect of this is the extent to which previous convictions, including but not limited to convictions of dishonesty, sexual offences, traffic offences, violence and drugs, indicate that a person is not a ‘fit and proper’ person and would not take advantage of passengers or abuse or assault them.
- 1.4 Simply remaining free from convictions will not generally be regarded as sufficient evidence that a person is a ‘fit and proper’ person to hold a licence. Some discretion may be appropriate if the offence is isolated and there are mitigating circumstances. However, the overriding consideration should be the protection of the public. The following examples afford a general guide on the actions to be taken where convictions are admitted or discovered.

#### 2 Dishonesty

- 2.1 It is essential for the public to have trust in hackney carriage and private hire drivers. The practice of delivering unaccompanied property is indicative of the trust that business people place in licensed drivers. However, there is scope for a dishonest driver to defraud a passenger by demanding more than the legal or agreed fare or by taking a longer route to a destination. Tourists and overseas visitors are particularly at risk from an unscrupulous driver. For this reason, the Council will take a serious view of any offences involving dishonesty. The Council will not consider an application until a period of at least three years free from convictions has elapsed. More than one conviction

for this type of offence within the last five years will raise serious doubts about the applicant's fitness to hold a licence. In such cases, the Council may reject the application.

2.2 In the case of a licensed driver convicted of an offence involving dishonesty, the Council, may refuse to renew, suspend or revoke the licence. If a licence is revoked, no further application will be considered until a period of at least three years free from convictions of this type has elapsed.

2.3 Offences of Dishonesty include:

- Theft
- Burglary
- Fraud including benefit fraud
- Handling or receiving stolen goods
- Forgery
- Conspiracy to defraud
- Obtaining money or property by deception
- Other deception
- Any similar offences of dishonesty where the conviction is less than three years prior to the date of application

### **3 Violence**

3.1 The Council will take a serious view of any applicant convicted of an offence involving violence. A licence will not normally be granted if an applicant has more than one conviction in the last 10 years for an offence of a violent nature.

3.2 Unless there are exceptional circumstances a licence will not normally be granted where the applicant has a conviction for an offence such as:

- Murder
- Manslaughter
- Manslaughter or culpable homicide while driving
- Arson with intent to endanger life
- Terrorism offences

- Or any similar offences (including attempted or conspiracy to commit offences) which replace the above

3.2.1 In the case of a licensed driver convicted of any of the above offences, unless there are exceptional circumstances, the Council will immediately revoke the licence.

3.3 A licence will not normally be granted where the applicant has a conviction for an offence or similar offence(s) that replace the offences below and the conviction is less than 10 years prior to the date of application:

- Arson, with intent to endanger life
- Malicious wounding or grievous bodily harm which is racially aggravated
- Actual bodily harm which is racially aggravated
- Grievous bodily harm with intent
- Robbery
- Possession of firearm
- Riot
- Assault on Police
- Racially aggravated offences
- Violent disorder
- Resisting arrest
- Or any similar offences (including attempted or conspiracy to commit offences), which replace the above

3.3.1 In the case of a licensed driver convicted of any of the above offences, the Council may suspend or revoke the licence. If a licence is revoked, no further application will be considered until a period of at least 10 years free from convictions of this type has elapsed.

3.4 A licence will not normally be granted where the applicant has a conviction for an offence or similar offence(s), which replace the offences below and the conviction, is less than 5 years prior to the date of application:

- Assault occasioning actual bodily harm
- Common assault
- Affray

- Criminal damage
- Harassment
- Or any similar offences (including attempted or conspiracy to commit offences), which replace the above

3.4.1 In the case of a licensed driver convicted of any of the above offences, the Council may suspend or revoke the licence. If a licence is revoked, no further application will be considered until a period of at least 5 years free from convictions of this type has elapsed.

3.5 A licence will not normally be granted where the applicant has a conviction for an offence or similar offence(s), which replace the offences below and the conviction, is less than 3 years prior to the date of application:

- S.5 Public Order Act 1986 offence (harassment, alarm or distress)
- S.4 Public Order Act 1986 offence (fear of provocation of violence)
- S4A Public Order Act 1986 offence (intentional harassment, alarm or distress)
- Possession of a weapon
- Obstruction
- Minor criminal damage
- Or any similar offences (including attempted or conspiracy to commit offences), which replace the above

3.5.1 In the case of a licensed driver convicted of any of the above offences, the Council may suspend or revoke the licence. If a licence is revoked, no further application will be considered until a period of at least 3 years free from convictions of this type has elapsed.

#### 4 **Drugs**

4.1 The Council will take a serious view of convictions for drug related offences. An application will normally be refused when an applicant has a conviction related to the supply of drugs and the conviction is less than five to ten years prior to the date of application. After five years have elapsed, consideration will be given if an applicant can provide evidence that they can be considered a 'fit and proper' person.

- 4.2 An application will generally be refused where the applicant has more than one conviction relating to the possession of drugs and the conviction is less than five years prior to the date of application.
- 4.3 An application from an applicant who has an isolated conviction for possession of drugs within the last three to five years will require serious consideration before a decision is made regarding their suitability.
- 4.4 The Council will take a serious view of a licensed driver convicted of a drug-related offence. An isolated incident will result in a strict warning about future conduct. More than one conviction for this type of offence in the last five years will raise serious doubts about the person's fitness to hold a licence. In such cases, the Council may refuse to renew, suspend or revoke the licence or require a medical examination to be undertaken. If a licence is revoked, no further application will be considered until a period of at least five years free from convictions has elapsed.

## **5 Sexual and indecency offences**

- 5.1 Hackney carriage and private hire drivers frequently carry unaccompanied and/or vulnerable passengers. The Council will therefore take a serious view of any convictions for a sexual offence. A licence will not normally be granted if an applicant has more than one conviction for a sexual offence.
- 5.2 Unless there are exceptional circumstances, an application will normally be refused where the applicant has a conviction for an offence such as:
- Rape
  - Assault by penetration
  - Offences involving children or vulnerable adults
  - Or any similar offences (including attempted or conspiracy to commit offences) which replace the above
- 5.2.1 In the case of a licensed driver convicted of any of the above offences, unless there are exceptional circumstances, the Council will immediately revoke the licence.
- 5.3 A licence will not normally be granted where the applicant has a conviction for an offence or similar offence(s), which replace the offences below and the conviction, is less than 10 years prior to the date of application:
- Sexual assault
  - Indecent assault
  - Possession of indecent photographs, child pornography etc

- Exploitation of prostitution
- Trafficking for sexual exploitation
- Or any similar offences (including attempted or conspiracy to commit offences), which replace the above

5.3.1 In the case of a licensed driver convicted of any of the above offences, the Council may suspend or revoke the licence. If a licence is revoked, no further application will be considered until a period of at least 10 years free from convictions of this type has elapsed.

5.4 A licence will not normally be granted where the applicant has a conviction for an offence or similar offence(s), which replace the offences below and the conviction, is less than 5 years prior to the date of application:

- Indecent exposure
- Soliciting (kerb crawling)
- Or any similar offences (including attempted or conspiracy to commit offences) which replace the above

5.4.1 In the case of a licensed driver convicted of any of the above offences, the Council may suspend or revoke the licence. If a licence is revoked, no further application will be considered until a period of at least 5 years free from convictions of this type has elapsed.

5.5 Applications will be refused where the applicant remains on the Sex Offenders Register.

## 6 **Alcohol Related Offences**

6.1.1 With motor vehicle:

The Council will take a serious view of an applicant convicted for driving or attempting to drive a vehicle with levels of alcohol in blood, breath or urine in excess of the permitted limit. A single conviction for any alcohol-related driving offence will normally preclude an application from being granted for a period of five years from the restoration of the DVLA driving licence.

6.1.2 More than one conviction for any alcohol-related driving offence represents an unacceptable risk to the public and an application will normally be refused.

6.1.3 If there is any suggestion that the applicant suffers clinical alcohol dependence, the Council may require a special medical examination to be undertaken. If the applicant is found to be suffering from clinical alcohol dependence, an application will not be considered until a period of at least five

years has elapsed after completion of treatment of the condition. The cost of any medical examination must be paid for by the applicant/driver.

6.1.4 The Council will take a serious view of a licensed driver convicted of driving or attempting to drive a vehicle with levels of alcohol in excess of the permitted limit as this will raise serious doubts about the person's fitness to hold a licence. In such cases, the Council may refuse to renew, suspend or revoke the licence. If a licence is revoked, no further application will be considered until a period of at least five years free from convictions of this type has elapsed.

6.2 Without motor vehicle:

An isolated incident will not necessarily prevent an applicant being granted a licence. However, a number of convictions for alcohol-related offences may indicate a medical problem. In such cases, the Council may require a medical examination to be undertaken. The cost of any medical examination must be paid for by the applicant/driver.

## **7 Minor traffic offences**

7.1 Convictions for minor traffic offences will not prevent a person from being considered for a licence. If a new applicant has six live penalty points on their driving licence for such offences then the application may be granted subject to a strong written warning. If an applicant has more than six penalty points on their licence then the application will normally be refused and no further application will be considered until a period of at least 12 months free from convictions of this type has elapsed.

7.2 In the case of a licensed driver accumulating nine or more penalty points the Council may refuse to renew, suspend or revoke the licence. If a licence is revoked, no further application will be considered until a period of at least 12 months free from convictions of this type has elapsed. A list of minor traffic offences can be seen in table 1.

## **8 Major traffic offences**

8.1 If an applicant has live endorsements or has been disqualified from driving in respect of major traffic offences then the application will be normally be refused until at least five years after the most recent such convictions. A list of major traffic offences can be seen in table 2.

## **9 Offences by licensed drivers, proprietors or operators**

9.1 Any conviction which results from an offence committed by any person whilst working as a hackney carriage or private hire driver, proprietor or operator (especially the offence of illegally plying for hire) is regarded as extremely

serious and may lead to a licence being suspended or revoked or an application to renew the licence being refused.

9.2 More than one conviction for the above would certainly lead to the licence being revoked. This includes any offences against the Town Police Clauses Act 1847, The Local Government (Miscellaneous Provisions) Act 1976 or any breach of the conditions or byelaws made under the relevant legislation.

9.3 Convictions of any description listed in table 1 committed by both hackney carriage proprietors and private hire driver's during the duration of their licence must be declared to the licensing section in writing as soon as the conviction is imposed.

## 10 Cautions and Endorsable Fixed Penalties

10.1 For the purpose of these guidelines simple cautions and endorsable fixed penalties shall be treated as though they were convictions.

3.2 All records kept by the operator pursuant to Condition 3.1 above shall be preserved for a period of not less than twelve months following the date of the relevant entry.

3.3 The operator shall keep written records of the particulars of all private hire vehicles operated by him and shall include a copy of the licensed driver's private hire licence, details of the proprietors, registration number and drivers of such vehicles together with any radio call sign used.

3.4 The Operator will securely retain the licenses of all drivers engaged to work for them and make them available for inspection as required.

### **4 Conduct of Proprietors**

4.1 The operator shall not accept any person as a passenger in a private hire vehicle unless the passenger or someone on his behalf previously requested the hiring by telephone, letter, email, text or personal call to the office or business premises of the proprietor.

- 4.2 The operator shall not permit an order or request for a hiring to be transmitted by means of a radio set installed in a licensed private hire vehicle, from a private hire vehicle to an operator.
- 4.3 The operator shall not by calling out or otherwise, importune any person to hire such a vehicle and shall not make use of the services of any other person for that purpose.
- 4.4 Comply with the Code of Conduct.

## **5 Miscellaneous**

- 5.1 The operator shall notify the Council forthwith should he/they change address.
- 5.2 The operator shall notify the Council forthwith of any intended change in use of a licensed vehicle, or of any relevant change of particulars supplied at the time of application for this licence.
- 5.3 This licence must be kept in the possession of the operator and must not be passed to any unauthorised person. It must be produced when requested by any authorised officer of the Council or any police officer.
- 5.4 In the event of loss or damage to this licence the Licensing Section must be informed immediately so that a replacement licence can be issued.
- 5.5 This licence must not be altered or defaced in any way.
- 5.6 The operator must take all reasonable steps to ensure that there is no radio scanning equipment in the vehicle at any time.
- 5.7 Since 2001 private hire vehicles must carry guide, hearing or other assistance dogs belonging to passengers, free of charge, unless a driver has a proven medical condition that would preclude such action. Licensed drivers have a responsibility to ensure that the proprietor they drive for is aware of such condition when they are first employed. The dog must be allowed to remain with the passenger.
- 5.8 If you wish to operate a greater number of vehicles than permitted under your licence, you will need to apply for a new operator's licence with payment of the appropriate fee, and submit your original licence to be surrendered upon grant of the new licence. You would not be entitled to any refund in respect of the surrendered licence.
- 5.9 No person or corporate or incorporated body may hold more than one operator's licence.

## Taxi Licensing Enforcement Policy and Procedure

### 1 Enforcement Policy Statement

- 1.1 It is the policy of Ashford Borough Council to ensure that taxi drivers and operators are licensed correctly and carry out their trade in accordance with both the relevant law and the conditions attached to the licences.
- 1.2 All enforcement action, be it verbal warnings, the issue of written warnings, statutory notices, appearance before the sub-committee or prosecution, will primarily be based upon the seriousness of the breach and the possible consequences arising out of it. Enforcement action will not, therefore, constitute a punitive response to minor technical contraventions of legislation.
- 1.3 Authorised officers, when making enforcement decisions, will abide by this policy. Any departure from the policy must be exceptional, capable of justification, be fully considered and be endorsed by the Licensing Manager or above before the decision is taken (unless it is considered that there is significant risk to the public in delaying the decision).
- 1.4 Authorised officers must be fully acquainted with the requirements of the policy and appropriate training will be provided where required.
- 1.5 Officers will be authorised by the Environmental Health Manager to take enforcement actions relevant and appropriate to their level of competence. Competency will be assessed individually by reference to qualifications and experience.

### 2 Enforcement Options

- 2.1 Achieving and maintaining a consistency of approach to making all decisions that concern taxi licensing and enforcement action, including prosecution, is of paramount importance. To achieve and maintain consistency, it is vital that the policy guidelines are always considered and followed where appropriate.
- 2.2 Licence application and enforcement decisions must always be consistent, balanced, fair and relate to common standards, which ensure that the public is adequately protected. In reaching any decision many criteria must be considered including the:
  - Seriousness of any offences
  - Driver or operator's past history
  - Consequence of non-compliance
  - Likely effectiveness of the various enforcement options

- Danger to the public

2.3 Having considered all relevant information and evidence, the choices for action are:

Licence Applications:

- Grant licences subject to the Council's Standard Conditions
- Refuse to grant a licence

Enforcement Action:

- Take no action
- Take informal action
- Use statutory notices, (stop notices etc.)
- Suspend a licence
- Revoke a licence
- Use simple cautions
- Prosecute

2.4 This policy document provides detailed guidance applicable to the various options for enforcement action.

### **3 Informal Action**

3.1 Informal action to secure compliance with legislation includes offering advice, verbal and written warnings and requests for action and the use of letters.

3.2 Such informal enforcement action may be appropriate in any of the following circumstances:

- The act or omission is not serious enough to warrant more formal action
- From the individual driver or operator's past history it can be reasonably expected that informal action will achieve compliance
- Confidence in the operator's management is high
- The consequences of non-compliance will not pose a significant risk to the safety of the public

Even where some of the above criteria are not met, there may be circumstances in which informal action will be more effective than a formal approach.

#### **4 Appearance before the Licensing and Health and Safety Committee**

4.1 An offending individual or company may be summoned before the Licensing and Health and Safety Committee to answer allegations of breaches of relevant legislation, Byelaws or conditions attached to licences.

4.2 Current licence holders who report convictions or breach relevant legislation during the period of their licence may be brought before the Committee.

4.3 The Committee may decide to take one or more of the following actions:

- No action
- A written warning
- Require the production of driving licences or other specified documentation at the Council's Office
- Suspend a licence
- Revoke a licence
- Recommend prosecution action

#### **5 Section 68 Notices**

5.1 An authorised officer may serve notice in writing for a hackney carriage or private hire vehicle or the taximeter affixed to such vehicle to be examined at the Council's appointed garage at a time specified in the notice. This notice must only be served having had due regard to the condition of the vehicle or with reasonable grounds to suspect the accuracy of the taximeter. An authorised officer may, in addition to requiring the vehicle to be tested, suspend the vehicle licence until such time as he is satisfied with the condition of the hackney carriage or private hire vehicle. This action will only be taken when he has reasonable grounds to suspect that the condition of the vehicle is an immediate danger to passenger and/or other road users.

#### **6 Appeals**

6.1 Appeals against decisions of the Council may be made to the Appeal's Committee and to the Magistrates' Court.

6.2 Any notifications of enforcement actions will include written information on how to appeal. This will explain how, where and within what period an appeal

may be brought and on what grounds and will confirm that the enforcement action is suspended pending the outcome of the appeal.

## **7 Prosecution**

7.1 The decision to prosecute is a very significant one. Prosecution will, in general, be restricted to those circumstances where the law is blatantly disregarded, legitimate instructions of the Council are not followed and / or the public is put at serious risk. Such circumstances are, however, in a minority. It is important that the criteria on which a decision to prosecute is made provide common standards that ensure a consistent approach.

7.2 The circumstances that are likely to warrant prosecution may be characterised by one or more of the following:

- Where there is a blatant disregard for the law, particularly where the economic advantages of breaking the law are substantial and the law-abiding are placed at a disadvantage to those who disregard it
- When there appears to have been reckless disregard for the safety of passengers or other road users
- Where there have been repeated breaches of legal requirements
- Where a particular type of offence is prevalent
- Where a particular contravention has caused serious public alarm

7.3 When circumstances have been identified which may warrant a prosecution, all relevant evidence and information must be considered, to enable a consistent, fair and objective decision to be made.

7.4 Before referring a matter to the Environmental Health Manager for possible prosecution, the Licensing Manager as well as the Council's Legal & Democratic Services Manager must be satisfied that there is relevant, admissible, substantial and reliable evidence that an offence has been committed by an identifiable person or company. There must be a realistic prospect of conviction; a bare prima facie case is not enough. With insufficient evidence to prosecute, the issue of a simple caution is not an alternative.

7.5 When a decision is being taken on whether to prosecute, the factors to be considered may include:

- The seriousness of the alleged offence
- The risk or harm to the public
- Identifiable victims

- Failure to comply with a statutory notice served for a significant breach of legislation
- Disregard of safety for financial reward
- The previous history of the party concerned
- Offences following a history of similar offences
- Failure to respond positively to past warnings
- The ability of any important witnesses and their willingness to cooperate
- The willingness of the party to prevent a recurrence of the problem
- The probable public benefit of a prosecution and the importance of the case e.g. whether it might establish a legal precedent. (As indicated above, advice on the public interest is contained in the Code for Crown Prosecutors. The general thrust of the advice contained therein is that, the graver the offence, the less likelihood there will be that the public interest will allow anything other than a prosecution)
- Whether other action, such as issuing a simple caution in accordance with the Home Office Circular 18/1994 would be more appropriate or effective

## **8 Simple Cautions**

8.1 A simple caution may be used as an alternative to a prosecution in certain circumstances.

8.2 Home Office Circular 18/1994 states that the purposes of the simple caution are:

- To deal quickly and simply with less serious offences
- To divert less serious offences away from the Courts
- To reduce the chances of repeat offences

8.3 To safeguard the suspected offender's interests, the following conditions should be fulfilled before a caution is administered

- There must be evidence of the suspected offender's guilt sufficient to give a realistic prospect of conviction
- The suspected offender must admit the offence
- The suspected offender must understand the significance of a simple caution and give informed consent to being cautioned

- 8.4 If there is insufficient evidence to consider taking a prosecution, then by implication, the criteria is not satisfied for the use of a simple caution. A simple caution should also not be used where the suspected offender does not make a clear and reliable admission of the offence. (It should be noted that there is no legal obligation for any person to accept the offer of a simple caution and no pressure should be applied to the person to accept a caution).
- 8.5 Simple cautions must be used in accordance with the Home Office Circular and may only be issued by the Environmental Health Manager.
- 8.6 Where a person declines the offer of a simple caution, it will be necessary to consider taking alternative enforcement action. Whilst this will probably mean prosecution, this is not necessarily inevitable. For example, it may be considered that a written warning would be appropriate.

## **9 Transparency**

- 9.1 Following the completion of an investigation into a complaint or any enforcement activity, the licence holder will be informed of the action intended to be taken.
- 9.2 Any written documentation issued or sent will:
- Contain all the information necessary to understand the offence and what needs to be done to rectify it. Where works are required, the period allowed for them to be completed will be indicated
  - Indicate the legislation or conditions contravened and measures which will enable compliance with the legal requirements and point out, where appropriate, that other means of achieving the same effect may be chosen
  - Clearly indicate any recommendations of good practice under an appropriate heading, to show that they are not a legal requirement
- 9.3 The clear distinction between legal requirements and matters that are recommended as good practice in all enforcement action, even if only giving verbal advice, is vitally important.

## **10 Test Purchase/Secret Shopper**

- 10.1 The Council will from time to time conduct Test Purchase/Secret Shopper operations as a quality control measure with regard to licensing.
- 10.2 The purpose of these operations is to provide the best possible service to the public, investigate complaints from the public and drivers alike and to highlight best practice.

# Appendix K

## Penalty Points System

- 1 The penalty points system outlined below identifies a number of breaches of conditions, byelaws and/or statutory provisions. It then indicates the number of points to be invoked should the breach be proven. The implementation of points would take place following investigation of offences or receipt of formal proceedings elsewhere by another agency e.g. the police.
  - 1.1 Penalty points will only be imposed where the licensee agrees the breach or offence has taken place. Where the licensee does not agree that the breach or offence has taken place the only option available to the Council will be to prosecute.
- 2 **The details of how the scheme will be operated are as follows:**
  - 2.1 Penalty points will be applied by authorised officers of the Council upon completion of investigation of relevant breaches of the Council's hackney carriage and private hire conditions or other relevant statutory provisions where breaches are identified.
  - 2.2 Penalty points when issued will be confirmed in writing to the licence holder.
  - 2.3 The number of penalty points issued will be in accordance with the tariff, reproduced below.
  - 2.4 The Council retains the discretion to issue penalty points to drivers, driver/proprietors and operators for a single contravention if the circumstances warrant it i.e. the breach is one against all these licences and it is considered joint responsibility is held.
  - 2.5 The imposition of penalty points against a driver who is an employee will not necessarily result in additional imposition of points to their employer or operator.
  - 2.6 Penalty points issued under this scheme will have a "life" of twelve months, and then will be deemed spent. The system is based upon a rolling twelve-month period.
  - 2.7 There is no financial penalty associated with the system, and the licensee may continue to work. However, the licensee will be asked to attend a Licensing and Health and Safety Committee hearing if more than a certain number of points are imposed on an individual licence in any one 12 month period. The thresholds are as follows:

### Penalty Points Tariff

Hackney Carriage Driver	12 Points
Hackney Carriage Proprietor	12 Points
Private Hire Driver	12 Points
Private Hire Proprietor	12 Points
Private Hire Operator	24 Points

**3 On appearing before the Licensing and Health and Safety Committee the following recommendations will generally be made by Officers.**

- 3.1 On the accumulation of 12 or more penalty points in a 12-month period a driver or a vehicle proprietor will be subject to a recommendation to suspend his/her licence for a period of 1 month.
- 3.2 On the accumulation of 24 or more penalty points in a 12 month period an Operator will be subject to a recommendation to suspend his/her licence for a period of 1 month.
- 3.3 Drivers, proprietors, or operators who accumulate the necessary total of points in a rolling year on a second or subsequent occasion, will be asked to reappear before the Committee. The Committee will take into account previous cautions, suspensions or prosecutions when considering Officer's recommendation for a longer period of suspension, or revocation of the relevant licence.
- 3.4 The above recommendations would not fetter the discretion of the Committee who may always decide to take no further action, to suspend the licence for any period, or to revoke a licence.
- 3.5 Once prosecuted or suspended all penalty points will be removed from the total accrued for that year by drivers, vehicle proprietors, and operators.
- 3.6 Any driver or vehicle proprietor or operator subject to suspension or revocation has the right of appeal to the Appeals Committee and to the Magistrates' Court against the suspension or revocation. All suspensions will therefore be subject to a 21-day appeals period prior to implementation to allow for the formal appeals process.
