B4 For Land / building(s) currently in use for community benefit – why you think the land / building(s) is of community value

<p>1. What is the current main use of the land / building(s) The land is designated as playing fields. It has been used for cricket since about 1987 in the ownership of Ashford Cricket Club, and more recently for other sports such as football (for example, by Kennington Juniors Football Club).</p> <p>A report to Ashford Borough Council Planning Committee 16 January 2019 documents its designation as playing fields. It is further evidenced in ABC's Playing Pitch Strategy under the heading <i>Football – Strategic Priorities</i></p>
<p>1. How does that current main use of the land / building(s) further the social wellbeing or social interests of the local community (defined in s.88(6) of the Act) Social wellbeing is furthered by the use of these playing fields for recreational and sporting interests. This has been achieved by use of the site for individual and team training, for coaching, and for amateur match play, especially team sports including cricket and football. Social interests are furthered by encouraging residents to enjoy sports. The cricket club is registered as a Community Amateur Sports Club with attendant obligations to be open to the whole community and have affordable membership fees. Kennington Juniors FC “give over 300 boys and girls between the ages of six and eighteen the opportunity to enjoy playing Association Football”.</p>
<p>2. Why do you consider that this, or some other main use to which the land / building(s) will be put which will further the social wellbeing or social interests of the local community, will continue and over what period (defined in s.88(6) of the Act) It is likely that, as designated playing fields, the current use of the land will continue indefinitely, in line with historical usage patterns and investment in other sports facilities nearby (not included in this application).</p>

B5 For Land / building(s) not currently in use for community benefit (s.88 (2) of the act)

Please answer the questions below

1. If the land / building(s) main use in the recent past furthered the social wellbeing or social interests of the local community please confirm that use and explain how it did that (including dates for when this was) (defined in s.88(6) of the Act)

2. How do you anticipate that the land / building(s) will be returned to that use or put to some other main use which will further the social wellbeing or social interests of the local community and when do you consider this will happen
