Dear Matthew

I have some initial queries arising from my reading of the documentation provided to me.

1. The last paragraph of Page 16 of the Consultation Statement refers to a separate document recording 169 queries raised during the regulation 14 consultation period. I should be grateful if I could be provided with a copy of this.
2. Appendix H of the Consultation Statement refers in part a) to the statutory bodies consulted. The short list on page 33 does not include all those referred to in Schedule 1 part 1. of the Neighbourhood Planning Regulations. For instance, it does not include neighbouring parish councils, utility and health providers and voluntary organisations. Could you please let me know whether all of these bodies were consulted at the regulation 14 stage and if so how . also Appendix H refers to businesses, but it is not clear if this was at the regulation 14 stage?

Kind Regards

Richard
