**84 For Land/ building(s) currently in use for community benefit - why you think the land/ building(s) Is of community value**

1. What is the current main use of the land/ building(s)  
PUBLIC HOUSE

2. How does that current main use of the land / building(s) further the social wellbeing or social interests of the local community (defined in s.88(6) of the Act)

It is the only Public House in the centre of the village and traditional focal point for our community. Although currently subject to Covid 19 lockdown restrictions, it is an important centre and regular meeting place for our community and since our successful nomination in 2015 has been completely refurbished. It serves food and many in the community eat here on a regular basis. Informal meetings of local groups regularly take place here, including weekly coffee mornings during the winter months (in the summer months the local coffee mornings take place outdoors in the larger gardens locally). It is our local live music venue with regular weekend music events. It is home to the local folk and blues club and provides a centre for the youth (i.e. young adults) of the village. Our local charity fundraising draw also regularly takes place here.

3. Why do you consider that this, or some other main use to which the land / building(s) will be put which will further the social wellbeing or social interests of the local community, will continue and over what period {defined in s.88(6) of the Act)

We need a public house in the centre of the village for all the obvious reasons stated above, and we consider that these and other activities will continue here indefinitely.

**B5 For Land / building(s) not currently in use for community benefit (s.88 (2) of the act)**

Please answer the questions below

1. If the land/ building(s) main use in the recent past furthered the social wellbeing or social interests of the local community please confirm that use and explain how it did that (including dates for when this was) (defined in s.88(6) of the Act)

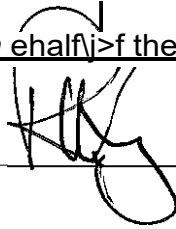

2. How do you anticipate that the land / building(s) will be returned to that use or put to some other main use which will further the social wellbeing or social interests of the local community and when do you consider this will happen
