**Please answer wither B4 or B5 below -**

**B4 For Land / building(s) currently in use for community benefit – why you think the land / building(s) is of community value**

1. What is the current main use of the land / building(s)

The land has been used as public open space since it was laid out in 1967 as part of the development of the area. It has been used by local residents for a variety of purposes including children playing; ball games; taking dogs for walks; wandering or promenading by way of pastime; sitting outside.

It has been maintained by Ashford Borough Council since inception and was generally believed to be in public ownership. Recently it has emerged that the land was acquired in March 2020 by London and Capital Housing Limited.

2. How does that current main use of the land / building(s) further the social wellbeing or social interests of the local community (defined in s.88(6) of the Act)

Social wellbeing is furthered by providing opportunities to engage in lawful pastimes and in other recreational activities, either singly or in groups, and by provision of informal green space in an otherwise built-up area. Social interests are furthered by fostering community spirit among near neighbours and creating a sense of place and location.

3. Why do you consider that this, or some other main use to which the land / building(s) will be put which will further the social wellbeing or social interests of the local community, will continue and over what period (defined in s.88(6) of the Act)

It is likely that the current use of the land will continue indefinitely, in line with historical usage patterns since inception.

**B5 For Land / building(s) not currently in use for community benefit (s.88 (2) of the act)**

Please answer the questions below

1. If the land / building(s) main use in the recent past furthered the social wellbeing or social interests of the local community please confirm that use and explain how it did that (including dates for when this was) (defined in s.88(6) of the Act)

2. How do you anticipate that the land / building(s) will be returned to that use or put to some other main use which will further the social wellbeing or social interests of the local community and when do you consider this will happen
