**Hearing Session: Issue 2**

## **ASHFORD LOCAL PLAN EXAMINATION**

### **Issue 2 Are the spatial vision and objectives for Ashford sound having regard to achieving sustainable development and the trends and challenges in the Borough?**

We would refer the inspector to our 2016 representation which outlines our concerns with regard to the potential scope for the Council to revisit the principles of development on some allocations within the plan. Whilst we appreciate that these objectives relate to overarching principles the policy must be clear as to how it relates differently to sites that have been allocated and those that have not.
