Dear Matthew

My apologies for the successive emails.

I am wondering if there is some confusion or omission in the document headed "Sustainability Appraisal". Paragraph 2.9 on page 10 refers to the recommendation of Historic England the paragraph 5.2 should be amended. I have not been able to locate paragraph 5.2. Appendix D page 58 is headed Scoping Report 2017 but the pages that follow do not appear to be a Scoping Report and do not contain a clear paragraph 5.2. They appear to be the addendum to the Screening Report which is referred to in paragraph 2.4 on page 9 as Appendix 1 to the Scoping Report. It appears that the Scoping Report itself has been omitted. Could you please clarify this for me?

Kind Regards

Richard
